

# Jakob Lorber Bulletin

## Internationaal

Date: 15-06-2024 number 100

Friends of the Jesus Revelation by the scribe and writing prophet Jakob Lorber feel connected to all people of the world as creatures and children of one and the same Father. This heavenly Father embodied Himself about 2,000 years ago in the Jesus Christ and did not manifest Himself as Savior and Teacher until His 30th year, for three years. The spirit friends of Divine Revelation [h]acknowledge in this eternal revelation a new and great Word of God and intend to come to a common joyful exchange.

## contacts - news - comments

**Dear brothers and sisters,**

**Dear people,**

My laptop has been hacked and some people have accessed all my email addresses, all accounts, passwords and all data. I now feel compelled to create a new account. Many E-mails that were entrusted to me were blocked without further ado', preventing dozens of readers from receiving the bulletins. I do not know how to resolve this immediately.

As mentioned, apparently the bulletins sent are boycotted and that gives some sweat equity. All information has been compiled with utmost care and work is being done on this almost daily. Lately, the size of the newsletter has unintentionally increased a bit, but that will recover with time.

If any of us have stopped receiving bulletins irregularly or at all, go to [www.zelfbeschouwing.info](http://www.zelfbeschouwing.info) and under INTERNATION. you will find the latest issues, which can be downloaded for free. Please note, mail us s'il vous plait no longer to the usual e-mail address, but from now on to our new mail: **[neue.offenbarung@gmail.com](mailto:neue.offenbarung@gmail.com)**

We are delighted to now publish the hundredth bulletin, started on 15 November 2015. But never could we have imagined that this could become so much work, but we are happy to do it with great diligence. So far, we have also received a lot of financial support from translators and proofreaders, as well as from readers who encourage us time and again.

We thank all readers for their reactions, including the 'silent dear readers'. Feeling, that many of us have a golden lesson in the Jakob-Lorber-Works from this, we hope to start again wholeheartedly after this 100th Bulletin on a

second cycle round of 100. This round does not have to be finished and many of us know why...Gerard

\*.\*.\*.\*.\*.\*

**Dear Johannes from Germany,**

You have made a fantastic contribution here for Jakob Lorber readers. I am somewhat amazed at the very enlightening summary, the icing on the cake for Lorber readers that you have tactfully pointed out reality, and that includes me.

I was just about to think about exactly what the 100th bullet issue in June 2024 should look like and had already written an outline for it, namely the criticism of the Jakob Lorber writings from "outside," which once rebutted.

But having read your impressive and meaningful "writing," from which I can still learn a lot, my "contribution" for the month of June can wait and I prefer your submitted article for the month of June. I will postpone my "draft" intended for this month.

Sincerely,

Gerard

# **The analogy of food & organs**

If young children become gluttonous by eating everything mixed together, sooner or later it will lead to some nasty disease. In this vein, Jacob Lorber writes, dictated by the Lord. For "if children are afflicted with all sorts of ailments in their early childhood, the main cause is unsuitable nutrition!

It is known in Jacob Lorber that legions of pure and impure nature spirits dwell in all food, which are absorbed into the body. It depends on what food you take in. The nature spirits can become "free" again through the food and even take on a life of their own. It is the same when you see wood burning in the stove as a fire.

The released nature spirits in (cooked, roasted and chewed) food attract group by group and form their own intelligence. They can positively or negatively influence the soul of man to some extent. Youth are especially vulnerable to such influences. Therefore, parents are advised - writes Jakob Lorber - to raise them with healthy [organic] food. If they ingest unsuitable food, large quantities of bad and impure spirits are brought into the body and the soul often suffers as a result. [GJE1-242]

Unclean spirits in your body can be compared to parasites, for they parasitize. In connection with this, Jakob Lorber writes much about the necessary fasting as a recommendation. The unclean spirits are thereby expelled. If a child suffers from this and such exorcisms will not succeed, the child will die quickly, but in the spiritual realm it will be well cared for by angels and it will receive a good education there. For parents, the premature death of their child is a bitter pill. Children should therefore be fed purposefully.

If a mother eats unclean food [e.g. bacon, ham, pork], then she should definitely not breastfeed the child, but leave this to another young mother, who does eat purely. Otherwise, she will later have many worries with her child. [for example, psychosis, suicidal or excessive behavior, etc.] [GJE1-242].

Therefore, the Jews already adhered to the mainly prescribed foods of Moses in the time of Abraham for these reasons. Their main diet consisted mainly of pure animals and pure fruits. All those who had meticulously followed such laws never had sick children at that time, and they themselves later reached a high old age and usually died of old age weakness. [GJE1-242:1-7]

Everything in life needs nutrition. Even sensitive equipment, which needs only "barely" nutrition and is called "amps.

Man generally eats, what he finds tasty and useful. The Lord especially warns us against "eating everything mixed together! It is no wonder that sooner or later a person becomes afflicted with all sorts of ailments. Wine is actually healthy, writes Jakob Lorber, provided it is also drunk in moderation, preferably with separate water with it, as people drink water with coffee today.

It may not have escaped the reader's notice that angels also eat and drink, for during Jesus' time on earth He was regularly served by angels in Palestine. A very well-known angel is Raphael [dressed in an auxiliary body!], and he also ate fish, bread and fruit, yes even drank wine. The disciples of Jesus at that time noticed that he only brought the food and drink almost to his mouth, but did not chew and swallow anything, yet the food disappeared into his auxiliary body. What could be the reason for this?

In heaven the blissful angels and spirits likewise eat, but in a much more perfectly blissful atmosphere. The heavenly food, although similar to our material world, is unprecedentedly more delicious. This even Swedenborg writes. They all taste and savour the food as we do on earth. The difference is that they do not have a material [material] body, and with them there is no need for **metabolism** to digest and relieve the spiritual fuels.

Unlike the person in the beyond, we need a metabolism to "defecate" through a material way. If the food in the Beyond is spiritual, then in a sense the food on earth must also be 'spiritual,' only with us the processes go much differently. The food here is "material. The angel Raphael extracted from his foreordained material food the "spiritual" needed for his spiritualized soul. We actually do the same, only there it goes much more differently.

In short, everything that man eats here, we take in the spiritual, but through a material way. For example, if we eat a lot of carrots, which contain carotene, then the spiritual substances will not go to our feet, but to where they belong and are useful, because the nutrients of carotene and the eyes are closely related. Every food product is in some sense related or connected to a corresponding organ.

Celery has the structure of bones. It, like rhubarb [it contains vitamin K], helps make bones strong. Bones consist of 23% sodium. We find this little substance in this vegetable. Because it contains a lot of oxalic acid put in a teaspoon of tartaric baking powder that quenches the acid. If you have too little sodium, eat a little more celery. All this together will replenish the skeletal needs.

Celery

Through nature, the Lord gives us visual clues as to what kind of fruit or vegetable has similarities to our body parts and its organ parts. Tomatoes are superfoods for heart and [blood] vessels, as well as the human heart. The tomato is red and has four chambers. The substance lycopene counteracts clotting of the blood.

tomato slices

**A carrot slice looks a lot like the iris and pupil of the eye.** Both have colored lines. It has been scientifically shown that carrots [containing carotene] also improve eye function thus.

internal structure of a carrot

Avocados and eggplants resemble the uterus and cervix. If a woman eats one avocado a week, it balances hormones. It reduces unwanted weight gain during pregnancy and can possibly prevent cervical cancer. **Pregnancy lasts 9 months;**

**an avocado takes 9 months to grow** from a blossom to a ripe fruit. **The 9th Hebrew letter "Teth"** in the alphabet means **uterus**.

Avocado

Grapes hang in heart-shaped clusters. They resemble blood cells. Grapes contain vitalizing powerful nutrients that resemble blood and lymph.

red and white grapes

A shelled walnut resembles the brain, a left and a right hemisphere, the upper cerebellum and the lower cerebellum. They even resemble the brain wrinkles and folds of the neocortex. So eating walnuts is healthy brain food.

Walnuts

Kidney beans resemble the kidneys. These help heal the kidneys and improve and maintain their function.

kidney beans

The food we eat strengthens not only the body, but much more the soul and also the indwelling mind. The Lord says for special reasons in John 4:32, that He ate a food of which His disciples did not know. But here Jesus is not talking about a material food.

To the Samaritan inhabitants of Sichar, in a woman's house, [from the well-known Biblical story of Jacob's well!] the angels, who were also there at Jesus' request and had prepared food for those present, said, "Dear brothers! Eat all these fruits, for **they are pure** and taste delicious! There are some fruits, grasses and animals on earth that are helped in their growth by unclean spirits, because that is so fitted into the divine order, for even devils must serve the Lord, even though it is against their will! For as a chained slave must serve his lord, so also devils must render their services; but there is no blessing on this work!

'And so on earth there are men, animals and devils, living and working more than once under one roof. But if they are to be spared from all the possible evils of this earth, they must not use evil and unclean fruits and animals. Therefore, the Lord has caused His servant Moses to determine what is clean and good, and the Lord has discouraged men from using unclean things, on which evil spirits also work, - and this is an excellent precept.' [GJE1-51:5]

**People had better keep away from this, if they want to be spared from all the possible evils of the earth.**

'But everything that is offered to you to enjoy here [in Sichar] is pure, because it was brought here for you from heaven in such a wonderful way, therefore you can enjoy everything without any objection! For what the Father gives from His heaven is pure and good, and helps the life of the soul and spirit eternally.' [GJE1-51:4,5]

'At the time of Moses in the wilderness, the motto was, 'Hunger is the best cook,' and the people would often have eaten raw meat out of hunger to

their detriment; **so Moses had to give this dietary precept**; therefore, those foods then had to be eaten fresh and hot!’ [Youth of Jesus-216:20ff.]

## Dietary Requirements

Jesus gives us advice in food. Food should be pure and easy to eat, hot or cold, freshly prepared or stored. The Lord especially warns us against eating meat from choked animals because it makes one sick. Those animals described (by Moses) as unclean require special methods of preparation. [GJE7-85:14]

What is eaten or drunk in moderation and purpose, fresh and properly prepared, does not make one unclean. We know the story of Peter on the roof, who was given a dream to eat clean and unclean animals. (Matt. 15:11). He was instructed in a vision to slaughter and eat the unclean animals. (Acts 10:9)

As Peter was sitting on the roof and absorbed in prayer with a close friend who was preparing his midday meal at the time, a clear vision appeared to Peter. He saw a sheet coming down from heaven and containing all kinds of unclean animals. Then he heard a voice, ordering him to get up and kill these animals and eat them. But Peter replied that he could not do such a thing, because he had never eaten anything unclean. However, this image struck him three times and when he woke up and wondered what this dream vision meant, he was quite upset.

Upon meeting Cornelius and his family [where he was staying], Peter finally understood the meaning of this vision. [Acts 10:28]. [Incidentally, this Cornelius,

also elderly and a military authority figure and brother of the vice emperor Cyrenius, was friends with Peter].

Paul assured the leaders of the Jewish Community, that he had never gone against the customs of the forefathers. [Hand.28:17] He showed that he personally disobeyed the laws of clean and unclean flesh.

If a starving man satisfies his body with food that is not selectively edible he is not sinning against the dietary law of Moses. But if a Jew eats the meat of unclean and choked animals with heart to the displeasure of his fellow man, yet has sufficient meat from animals considered clean, then he sins. because he gave offence to his fellow man. [Romans 14:20-21 - GJE6-222:12ff.]

All parts of the body must be nourished. Jesus says, "Only the SOULEST and the particles most related to light are elevated to the nourishment of the eyes. [In a material sense, linseed and linseed oil contain the most atoms of light!]

The psychic soul particles most related to love life are assimilated with the life substances of the heart.

The Lord describes the following in the NO: 'For the food that a person takes in daily makes up a periodic nutritional part of the human body also for a certain time. The soul extracts substantial specific nutrients as a supplement and then passes it on to the already fixed body.

But when the periodic nutritional body has done its thing, it is considered otherwise unusable, and the consistent body still closely associated with the soul removes the waste. If it were to remain as a very coarse material part of the body in the consistent body already more closely related to the soul, this would undoubtedly lead to the inevitable death of the more solid body.' [GJE5-184: 5]

The coarser the food particles are, the coarser are also the most various body components, which are suitable as food for a bone, but would not enter the eye.

Furthermore, the Lord says, that mankind, from a physical medical point of view, **could prolong his physical life by over a third**, if instead of a flat sleeping place, we made a good resting couch and resting chair. With flat beds, the blood status and circulation undergoes a strong change between day and night, which will cause early all kinds of obstacles and changes in the digestive

organs. If you rest at night in this way, everything will remain very well for many years.

**'Only from intemperance should everyone once again beware.** What is beyond measure is bad for man! Intemperance in eating and drinking causes stomach ailments. Intemperance in alcohol causes chest ailments and uncleanness. The stomach is the nourishing heart of life of the body. The heart in man is the nourishing stomach of the soul.'

The teachings of Jesus, is to man the true bread from heaven, which nourishes his life. This teaching, together with the Bible, which is thereby revealed, is the true way of life and drink of life for the stomach of the soul. **The soul is the actual nourishment. Also, it is the body of the spirit. The body is nothing but an accomplice of the soul.**

Cyrenius asked the Lord a question about the survival of a wheat germ: 'So what happens to the germ of wheat when it is ground into flour and then baked into bread and then eaten? At these stages, does the life-germ still live on?'

essential cereal  
life-germ of wheat

The LORD says, 'Certainly; for when you eat the bread, the matter of the flour is soon removed from the body again by the natural way, but the germ life then, by its spiritual form, passes immediately into the life of the soul and, according to its corresponding disposition, becomes one with it. The more material of the life-germ, becomes food for the body and eventually, when properly purified, also enters the soul. That serves her for the formation and nourishment of the soul organs, such as her limbs, her hair, etc., and further for the formation and nourishment of all that, which you find from a to z of a human body.'

Furthermore, the Lord said to Cyrenius, '**That a soul is made up of all the same parts as the body**, of this you can more than tangibly convince yourself with the angel Raphael, who is sitting at our table and is now speaking to Josoe. (Turning to the angel:) Raphael come here, and Iet Cyrenius touch you!' [GJE2-218:2,3]

So the angel Rafael spoke to Cyrenius and said, 'A soul consists of all those parts that make up the body. 'If a soulless and spiritless body, which in itself consists almost entirely of matter, does not and cannot take food into itself, then surely it must be the soul and spirit of life in this body that takes in the food. **Since the body is nothing but an accomplice of the soul and needs no food for itself**, therefore it is the soul and its spirit that uses the food of the earth for as long as it inhabits its body, and sustains it by making it eat its waste! **For the body is nourished by the waste of the soul.'**

'So if in material man only the soul, as long as it inhabits the body, uses the food of the earth, then as a soul and spirit, as long as I put my feet on this earth to be able to serve you, and have for that purpose a certain kind of body created out of air-matter, may I take to myself earthly food?!' [GJE1-206:14,15]

**The body cannot eat all the waste of the soul.** Then it becomes overloaded. This excess comes through gluttony, reveling and brassiness. Such a soul then becomes sensual and material. Most of the waste remains in the soul. Eventually the soul becomes sick and psychosomatic complaints arise. The soul gets off its divine path and roots itself further into matter. One then takes psychopharmaceuticals, drugs, alcohol, nicotine and further narcotics, which make the mind unreceptive to higher purposes. The soul then becomes "desensitized" to divine things and natural means.

## **Food Commandments of Moses**

In order that children may not get sick and die at a young age, and that people may remain healthy, pure animals and pure fruits were already legally reported to the Jews by Abraham, mainly by Moses, and all those who conscientiously obeyed such laws never had sick children and reached an old age and usually died of old age.

Matter has varying degrees of hardness. The harder it is, the wilder and more impure it is, because its spiritual substances, congealed in it, consist of the same proportion of self-love, selfishness, pride and lordliness.

The animals that have joined humans from the very beginning of the population of this earth - the livestock such as the sheep, goat, chicken or pigeon are of a purer nature and a softer character. Therefore, their meat of the purer preservation of the soul is most beneficial to man who came from above. [GJE4-111:2-7]

However, even these animals had to be core healthy and could not be slaughtered during the rutting season, because at such a time the otherwise pure animal is unclean. In time, other animals such as the horse, donkey, camel, pig, dog, cat joined man, but initially only the children of this world, while with the exception of the donkey and later the camel, the aforementioned animals were accepted among the Jews with a friendship in the background.

In the time of Jesus, a true Jew even feared a horse and a dog, and he was no friend of a cat and did not quite trust the camel. Waterfowl and chickens were repulsive to him.

The Mosaic purity laws (concerning the clean and unclean animals) were not an incentive to eat meat, but rather the laws were given against excessive carnivorous greed and its (associated) irrepressible lusts.

Under the leadership of Moses in the desert, it was said, hunger is the best cook! The people at that time would often have eaten raw meat out of hunger, but to their detriment. Therefore, Moses had to prescribe a certain diet and the food had to be enjoyed fresh and hot.

The Lord did not simply say, "Become therefore as spreaders of My teaching. Whatever goes in through the mouth in moderation and purpose never defiles man. Only that which comes out from the heart through the mouth defiles man to the harm of his fellow man! Thus with this teaching you will permanently give to men true blessing and true salvation, **which in a thousand years and another thousand years will be as pure as I give and have given it now!**" [GJE5-131:8];

### **Eating and fasting in the right way**

Jesus said to Peter about 2,000 years ago, 'He who fasts in the right way acts better than the one who always revels and vomits. The right and true

fasting consists in abstaining from all sin. And eat no more than is really necessary; all other fasting makes little or no sense.'

The soul asks for material food for its body. With this food - Lorber writes - a legion more free, still unclean spirits also always enter her body! Such spirits are called "microbes" in our language, though visible under a simple microscope. These have to help in the further building up of the soul body [i.e. maintaining it!] And they gradually unite. Soon, however, they form their own specific souls with their own intelligence peculiar to their own kind.

They begin to make provisions in the body that would be suitable for their supposed salvation. If such spirits enter young children [through food such as too often and too much raw food and unripe fruit!] then such children develop certain symptoms like possession or they die prematurely from some serious ailment.

Fanatical fasting and chastening of the body does no good to the soul, Jesus says through Lorber, but one then commits an extraordinarily grave sin. [I myself have often and fanatically done a "Mayer cure," and eventually had to pay for it with a thyroid gland that no longer works].

Peter wonders, how the body can be fed with the waste of the soul. Does the soul then also have a stomach and eventually even an anus? The Lord answered him, 'The soul itself becomes sensual and material by wallowing and roasting; it becomes overloaded, and the body cannot absorb all the waste of the soul, and the result is that the waste remains in the soul. This so oppresses and frightens her that she seeks all means and ways to get rid of the excessively accumulated waste. And those ways then consist of all kinds of fornication, fornication, adultery and more of those things. But because the soul experiences a certain stimulus of lust from these, it then becomes more and more lustful and then focuses even more on reveling and brassing, and it finally becomes completely sensual and in spiritual matters of life completely obscure, therefore hard, unfeeling and finally wicked, proud and haughty. When such a soul has lost and had to lose its spiritual value by virtue of the way of life now indicated, and has thereby become spiritually dead, it literally begins to erect a throne out of its waste, and finally it sets an honor in it and thinks it has prestige because of its great amount of waste.'

The Lord goes on to say, 'All people, who in this world have a liking for what pleases their sensuality, are as souls up to their ears and eyes in the thick waste, and are therefore spiritually deaf and blind, and no longer want to

see and hear and understand, which could help them. Therefore, always be moderate in eating and drinking, lest your soul become sick and perish in its waste!

'There are those who, by a certain chastisement of their bodies, wish to enter the spirit world and then to subdue nature with their powers; this is not only altogether useless for the soul, but also very harmful. The soul then falls like a half-ripe fruit from the tree of life, while the core of life is always rotten, empty, deaf and therefore dead. Such chastening and fasting is thus not a virtue, but an extremely gross sin! Whoever therefore wants to live according to the true order must live just as I live and teach to live, then he too will see the fruit of life blossom and ripen within him. In it, not a dead but a whole living core will form for the only eternal life in the spirit, and it will develop orderly and prosperously into a whole living self-consciousness. Now you know also in this respect what must be done entirely according to the divine order; do that, then you will have life in you!' [GJE1-207:2ff.]

'But today's youth regularly seek out worldly "foreign delicacies" and almost no one questions whether that is clean or unclean. [Think, for example, of the artificial flavors, the flavorings, the so-called faulty E-numbers]. Therefore, the impure soul will also eat a lot of unclean food. This one [consumes] everything that seems edible. Such an 'unclean' soul, according to the writings of Jakob Lorber, therefore, in the ether or in the spiritual world resembles a voracious animal, which is in accordance with its soul.'

'The food we take from the earth is examined by an invisible divine help [an angel - that is usually the angel Raphael], very carefully. If a person is already so polluted, great and even greater diseases arise - for the salvation of the already too materialistic soul. Jakob Lorber writes that such a person loses his appetite in the process. The soul then tries to remove its old dirt from the body with allopathy, for example. [Matter is best treated with matter]. According to the NO, this helps only partially, but never completely.'

So Jesus literally says here, 'If a man is to remain perfectly healthy in body and soul, he must be fed moderately from childhood on pure food. And always one and the same food! For if men had remained with the food indicated to them by Moses, the doctors with their 'medicines' would never have had anything to do with them.' [GJE10-210:1-4ff.]

**Fish** of the good kind, **kept in clean water**, and prepared in the way they should be, are the healthiest food for the human body. Where such fish are not available, **wheat and barley bread** by itself is the healthiest food for man, as is **the milk of healthy cows, goats and sheep**. [Nowadays, spelt cereal and oatmeal too!].

Among legumes, **lentils take first place**, and also as in preparing mash from the large Persian corn grains. **Only the meat of some chickens and pigeons**, but of a healthy and pure bovine and also of goats and sheep, in a perfectly bloodless state, then can be eaten roasted or boiled; roasted, however, is preferable to boiled.'

**'The blood of animals, however, should not be eaten by anyone.'** [so also no blood sausage!]

'That which I have now enumerated is and remains for men the simplest, purest and healthiest food; everything else-especially when eaten in excess-is harmful to man, and especially, when it is not prepared in such a way that the evil of nature's spirits is completely removed from it.' [GJE10-210:4-8]

Again, among legumes, lentils take first place. Jacob, the son of Isaac, prepared red **lentil soup** in his day, and his brother Esau, returning tired from a hunt, had such an appetite that he said, 'give me that delicious prepared lentil soup,' to which Jacob said, 'on the condition, that I receive your firstborn right.' So the deal was closed.

The Lord gives us advice on how to eat meat. It may be roasted but in a completely bloodless state. So no steak of the hare. This meat contains the most blood. Jesus says that from the food eaten the bad must first be taken out beforehand, that is, the bad of nature spirits.

Nature spirits

Fruit must always be perfectly ripe. One day the time will come when everyone's spirit will become free says Jesus. However, as long as the wine in man has not thoroughly fermented and through the process of fermentation has removed the impure from himself, then the heavenly light cannot penetrate his being.

All flesh [the flesh of the spirit is the soul!] will not be destroyed, but will rise with the spirit to eternal life. So by flesh the Lord does not so much mean the actual flesh of the soul, which is the body, but material pride must be destroyed by faith. [GJE1-19:21]

## **Nog wat praktische voedingsvoorbeelden**

### **Some more practical food examples**

The garden bean was considered the main food source for hard workers and as an intermediate food for school children, but it also always provided the common people with valuable nutrients that got them through many a severe hardship.

Broad beans

The sweet pea was even nicknamed the "heavenly gift" because this food product ensured the survival of poor people in times of great famines in England.

sweet pea

Lentils were also formerly used to treat diseases such as chicken pox or worm infections.

Lentils

Even in ancient times, the chickpea was known to be particularly nutritious.

Chickpeas

Bambu has the shape of the vertebrae in the back; medicine is made from this and can be applied against osteoporosis and it stimulates the calcium balance of the spine to stand firmly upright.

Bambu

The sperm bean also has the shape of the back. It contains a lot of protein and provides flexibility.

green beans

The mandrake root is certainly one of the most typical plants. It is a root in human form, a so-called "earthling"; on its head you can see three flowers on a long stem. The mandrake [mandrake] is said to be able to fight evil in man. He stands up to his hips in the earth, surrounded by a barren and desolate landscape.

mandrake = alum

Anyone who keenly observes the external form of a plant [signature] could find out, by means of peculiarities, what a plant has to tell.

The teatweed with many nodules on the root can be used against crop ulcers and hemorrhoids.

fennelweed

## Parkinson's

The number of patients with parkinson's has skyrocketed. The medical profession in neurology admits that aging does not play a role in this at all. It simply means being exposed to airborne pollutants for too long, e.g. living next to a busy traffic road: cars emitting heavy metals and ending up in residential neighborhoods and vegetable gardens along the road.

Pesticides can potentially literally "ruin" habitat, and working with pesticides not only ruins the air and soil, but also people. The pollutants remain toxic in the body, especially in the brain.

Symptoms of Parkinson's include walking problems [walking or looking stiffly lumbering] moving slowly, depression or disorders of memory. The nerve cells in the brain are damaged by the accumulated pesticide substances, preventing the production of dopamine.

Sprayed food has been processed with toxic pesticides. If you eat sprayed food for years, it can pose a danger to your health. Switching to organic food is a wise option. However, washing sprayed fruits and vegetables only helps minimize the toxins to a small extent, yet these toxins still reside in the deeper layers beneath the skin.

Long use of Chorella is certainly recommended because it can remove the heavy metals. The Lord advises us to be frugal with the earth: 'EARN YOUR FATHER

AND MOTHER' means respect not only to your parents and ancestors, but also to 'mother earth' who provides us with all the food.

\*.\*.\*.\*.\*

# THE END TIME

## "WAKE UP!"

### EXPLICIT WARNING, ADVICE AND DIRECTIONS

written by 'Sun Child' Johannes

The following statements about the present end times are especially for New Revelation (NO) friends, who recognize the New Revelation (NO) of Jesus by Jakob Lorber, Gottfried Mayerhofer and Leopold Engel as the "little crown."

The return of Jesus in the clouds of heaven, is the spiritual return of Jesus, his return through his word by Lorber, Mayerhofer and Engel, will serve all mankind as the future religious system for the new church full of love.

Regarding this end-time process, NO friends MUST be willing to "forget" everything they have "learned, read and believed" outside the NO works. The "problem" of many NO friends is the fact that we have been seekers and are still seekers on this long road and have also more or less stored up a lot of "data garbage" (e.g. by a multitude of seers) and this prevents us from recognizing the truth. We then try to harmonize and adjust everything somehow, which then leads to totally wrong results, for example, with regard to the end times.

As people who speak out and refer (among other things) to the NO of Jesus by Jacob Lorber about the present end times such as, for example, topics such as God's judgment, the heavenly bodies (e.g. global catastrophe from the cosmos by a celestial body skimming close to the earth), a polar leap, a burning of almost the entire surface of the earth, the rapture of people of good will (e.g. Christians), the antichrist as an individual or elite, the tribulation in a period of 7 years (divided into 2 times 3 ½ years), a great cross in the sky, etc., then they are talking about every NO. If we talk about the rapture of people of good will (e.g., Christians), the antichrist as an individual or elite, the tribulation in a period of 7 years (divided into 2 times 3 ½ years), a great cross in the sky, etc., then any NO friend would immediately have

their alarm bells ringing because these very points have nothing at all to do with the NO works.

Yes, according to a large number of prophecies outside the NO works, such things could be expected and one or two subjects from the NO works could also be interpreted "at face value" in this way (e.g., the enemy from the sky). In particular, proponents of other prophecies with the angel tongues try to suggest that the Lorber work can or even should be interpreted this way and that it is incomplete and even wrong. But precisely that is NOT the case here! The entire NO work is on the one hand very clear and on the other hand it can be understood in its "context," and with respect to the present end times, the aforementioned issues are completely excluded.

The next problem is that there are also a large number of passages in Jesus' NO work that refer to the present end-time complex, as well as to later end-time phases (e.g., in about 1000 years or later). It is important to pay attention to this because Jesus makes statements in the NO work about the present end times and the next end times in about 1000 years and the end of mankind (probably in many millions of years!?). Most NO friends "mix" everything here like cabbage and turnips, which then inevitably leads to completely wrong results.

### **The all-important and decisive words of Jesus are**

**here:**

#### **the four purifying fires**

For the end of this end-time phase, here are the statements of Jesus, which describe the end of this present end-time phase - clearly, clearly and easily understood - in **direct connection** with the transition to the 1000-year kingdom of peace.

In expanded form, these are the four types of cleansing fires along with the transition to the 1000-year kingdom of peace, i.e., described in **GJE8-185-187**, and in abbreviated form the following three passages in **GJE8-186:06-08** (decisive here is the text coherence!):

[GJE8-186:6] **IF (!) such activity and activity** by the power of **fire** (Note: What the "fire" is supposed to mean is described in Jesus' word for this from GEJ8-185) will once have reached **its highest point**, then also the **air of the earth** at such points will be too powerfully filled with the **combustible ethers**, which will then **soon ignite here and there** and turn such cities and regions together with many of their inhabitants into rubble and ashes [Note: According to Wilfried Schlätz, this is the "enemy from the sky," a self-induced burning of industrial agglomerations by the release of combustible etheric species (caused exclusively by homeless nature spirits), which no natural scientist yet knows! In other words, so local fires caused by industrial man himself! Clue:

It is well known that the "enemy from the sky air" is misinterpreted by many NO friends; and this, then, will probably be a great and effective purification. But what the fire caused in this way will not accomplish, **other great earth storms of all types and kinds** will accomplish where it will understandably be needed; **for nothing will be burned and destroyed without necessity.**

[GEJ.08-186:07] BUT **THEREFORE (!)** the air of the earth will then also be freed from its evil vapors and nature spirits, which will then exert a beneficial influence on all other creatures of the earth, and which will then also serve the natural health of men in such a way that all many and evil bodily diseases will cease, and men will be able to reach a healthy, strong and old age.

[GEJ.08\_186.06] **Because (!)** the **people** thus **purified** will stand in My light and keep the commandments of love alive and true forever, earthly possessions will also be distributed among men in such a way that everyone will have so much that he will never have to be in need if he works diligently; and the heads of the communities as well as the kings, as fully under My will and light, will see to it that there will never be want in any land among any people. **And I Myself will soon visit the people here and soon there, and strengthen and exalt them** where the people will have the greatest desire for and love of Me.

These statements of Jesus are the all-important standards!

The multitude of Jesus' statements about these present end times in his NO work are "practically" all "merely" a kind of "**access road**" to the detailed main body of **GEJ8-185-187 or the abbreviated form of GEJ8-186:06-08.**

Any NO friend who has recognized the Jesus work through Lorber, Engel and Mayerhofer as the "little crown" should be aware that all the characteristics for this end time have already been fulfilled, so there is **NO more waiting for topics** such as, for example:

**"God's judgment of punishment through a heavenly body".**

This will not happen because it would be in flagrant contradiction to the command of Jesus-Jehovah-Zebaoth. It is not Jesus who sends a heavenly body and intervenes here, but man "punishes" himself by his irresponsible behavior according to the motto "cause and effect." Everyone recognizes the consequences of man-made climate change, among other things. This will come to a head in the near future and have a huge impact.

The organism earth/nature is already "defending" itself more and more massively against the attacks/destructive fury of man, although this "defense" is also only done according to the "cause and effect" motto. Cause and effect has nothing at all to do with God's intervention. Therefore, the cleansing in this end-time judgment will NEVER take place by a celestial body or, for example, a pole shift, but by a catastrophe caused by mankind itself!

Do not be misled when Jesus speaks here, for example - as in HEMELY GOD 3.481001.9 - that He will send judgment on your proud heads. Always be aware that Jesus obviously knows in advance what will happen - Jesus also created this earth according to His order and therefore knows the mechanisms. However, Jesus also constantly reminds us, especially in the NO work, that it is not He who is responsible for the judgments/punishments/consequences, but that it is basically man who is responsible for the direct consequences of his actions - according to the motto cause and effect.

### **"Pool Jump"**

This will not happen because it would be in flagrant contradiction to the command of Jesus-Jehovah-Zebaoth. Like the human body, the earth is a well-designed organism that cannot simply be changed.

Jesus established His eternal order in such a way that this end-time judgment never comes directly from Jesus, but is always a result of the abuse of people's completely free will.

Using the two examples of celestial bodies and polar leap, anyone can easily recognize how "prophecies, visions, father words, mediumistic communication with spiritual beings, imputations, etc." and/or idiosyncratic, subjective, false interpretations and interpretations that can very quickly lead to wrong conclusions and wrong opinions.

### **"Signs in the sky"**

These show themselves to us materially in the polar lights, i.e. the north/south light, which can now increasingly be observed not only at the North/South Pole, but also in Central Europe.

### **'Burning almost the entire surface of the earth'**

The burning of almost the entire surface of the earth, according to the NO, does not concern the present end times, but the time at the end of the millennial kingdom of peace.

'The earth will therefore continue to exist as it did after Noah's time, and it will bear My children who are more enlightened; only the dirt that has already increased too much will be removed from the earth and entered into another place of cleansing, which is truly not lacking in My eternally great kingdom...' [GEJ 5.110.6]

'You must not think, however, that this natural earth would then perish and be changed into a new one, but only men, by taking the divine truth completely into their hearts, will, as true brothers and sisters, create a new spiritual earth with one another in My name.' [GEJ 8.48.3].

'But now I also tell you that before My coming on this earth, very many weeds and barren grasses and all kinds of unfit and unfruitful bushes will be destroyed with the greatest severity of judgment; for where there are two, almost one will be accepted and the other separated - thus a tremendous shuffling to more than half!' [HIM 3.490406.104]

### **"Removal of people of good will"**

According to the above topic "Burning up almost the entire surface of the earth," the removal does not refer to the present end times, but to the time at the end of the Millennial Kingdom (before the burning up of almost the entire surface of the earth).

### **'Antichrist'**

The term "Antichrist" causes much confusion among many NO friends.

Simply put, the NO work describes the antichrist as a certain phase of time - in this case, the age of materialism and industrialization - in which only the head/mind works and the heart is silenced, being completely cold.

For the "followers/friends" of a personal/elitist antichrist, however, it should be obvious that this point too has long since been fulfilled. We are already living in a horror combination of two masterpieces published more than 70 years ago by the brilliant visionaries of the future Aldous Huxley "Brave New World" and George Orwell "1984."

The problem with this is that many people and also NO friends still do not realize that we are already living in the era of total system failure, terror, horrors and madness.

Aldous Huxley's "beautiful new world" is the absolute terrifying dystopian classic! A scientifically built method as a "perfect" dictatorship, in which individual humans are so programmed for domination purposes and are happy with their serving slave existence, but do not realize that they are enslaved!

Designed babies! Massive use of antidepressants and drugs! This vision and new order is based on ubiquitous happiness and drugs and that goes deep into the heart of our current idea of pleasure and consumer society!

In George Orwell's "1984," totalitarianism controls minds and uses purposeful lies! Permanent use of manipulative propaganda - willing manipulation - fake news! Manipulation of language! Permanent surveillance - mass surveillance - data storage! Social credit system! Those who comply, i.e. citizens who conform to the system are part of it but those who do not comply are silenced! Cult of personality - also around political leaders! This vision and new regulation is based on retaliation and fear as the coronavirus pandemic has shown, and also strikes at the heart of our current society.

### **"Incarnation of Archangel Michael".**

This spirit was already in Jacob Lorber. Many NO friends are still waiting for this - like

the Jews for the Messiah - and cannot see the forest for the trees. Many Swedenborg friends assume that the spirit of Michael was already in Emanuel Swedenborg. However, this point should not lead to any discussion, because the important thing here is, that this subject is already fulfilled before the current end times.

### **"4 years"**

Dilapidation/cleansing according to HiG.03\_49.04.06.10 "four years and some time more." This point is actually more difficult to categorize. Many NO friends assume that this could refer to the time from the beginning of the coronavirus pandemic, i.e., from 2020.

### **Miscellaneous:**

### **"The Birth Date of Jesus"**

What dates are known to us about the birth date of Jesus?

[GJE.08\_086,03] 'See, this Jesus from Nazareth, but born in Bethlehem according to your calculation in the 4151st year after the birth of Adam, in the month of January on the seventh day at midnight, ...'

We know many incidents from the NO, for example GJE.08\_006: ... 'How and where He was born, and all that happened at His birth, when thirty years ago the old, wicked Herod had the great multitude of innocent babies one or two years old murdered for His sake, because the three wise men from the far East, who had been led here by a star, had brought him the news that a new king had been born to the Jews in Bethlehem ... .. fled to the ancient city of Ostrazine and did not return to the neighborhood of Nazareth until old Herod died after three years, eaten by lice ... .. When he was twelve years old, he came with his earthly parents to Jerusalem for the prescribed boy's examination ... And now behold, the man who now performs such great works purely by the purely divine power of His will and His word, is the same newborn king of the Jews thirty years ago in Bethlehem and the same wise boy who astonished the whole temple twenty years ago!"ll

All other calculations made on this subject by various people and NO friends must be considered uncertain. Most NO friends assume that one can be relatively certain that Jesus was born in the period 1 B.C. to 9 B.C. according to the current calendar.

Not for nothing did Jesus not give a specific date for His birth relative to the current calendar because, among other things, this would lead to people being directed, for example, by people trying to determine the extreme end time of the great end-time judgment. (Which we as NO friends are constantly trying to do anyway).

[HiG 1.40.05.24.02-03] '.... For you see, I never set a time for anything, but always act according to the nature of people's circumstances, ... For this true reason I let all prophetic timekeepers and time calculators run and ultimately be shamed. And so it will not be Me, but people will unknowingly determine time by their actions. And I will

then come as a THIEF when they least think of it. ||

'If, on the other hand, we start from Jesus' statements that everything depends on circumstances/conditions/characteristics and that concrete predictions with dates would be a focused one, then everything can also be postponed.' [HiG 1.40.05.24.02-03]

### **"Around the year 2000"**

Everyone knows the current calendar and the signs of the times and that the end-time judgment is a result of the abuse of man's completely free will.

However, everyone should see the tension ratio in the calculations and that they can also be a "directed" - according to the NO, Jesus will put the arithmeticians to shame. Jesus does not allow himself to be fitted into a scheme of calculations, but ultimately circumstances are always decisive.

Many NO friends currently assume that the major general targeting caused by humans will occur between about 2024 AD and about 2032 AD.

### **"Data information, about every 2,000 years, for example."**

[GEJ 6.76.10] I said, "Therefore only the Father knows it, and after Him only he to whom the Father wants to reveal it knows it. My Father has not yet revealed it to Me, except that, that this will happen. But you can all take this as perfectly true, namely, that **almost every two thousand years** a great change takes place on earth. And so it will be, from now on, so reckoned.

### **List (according to the dates known to us):**

ca./about 4000 B.C. Adam 4151 B.C.

Flood, deluge, e.g. assume NO friends here 2150 B.C. to ca. 2500 B.C.

birth of Jesus - e.g. many NO friends assume from 1 BC to 9 BC.

great general direction caused by man, return of Jesus, direction, return of Jesus, beginning of the 1000-year kingdom of peace - e.g. many NO friends assume from (2024) from ca. 2024 A.D. to ca. 2032 A.D.

Thus, according to the above list, the term "about two thousand years" is a more vague numerical term, an approximate value to be interpreted broadly. Examples in NO works and calculations by NO friends show that deviations up to about 1 to 5 centuries should be considered "normal" for the term "about" in the above list.

### **"1890"**

'When one will count from My present presence nearly eighteen hundred and ninety years, there will be virtually no more war on earth.' (GEJ.08\_185,10 )

Many NO fans "stumble" over this statement because it "seemingly" does not match reality. However, this has everything to do with proper reading and interpretation in

the context of NO work. It is actually quite simple here, but many NO fans simply overlook the crucial term "close".

We must also never forget that the term "near" has a very different meaning for a spirit (in this case, Jesus) than it does for us humans. Here we humans think of days, weeks, months or a few years, while for a spirit it can mean decades, centuries and more.

By the way, this series of topics is highlighted by NO friend Wilfried Schlätz, among others.

See: [http://jesus2030.de/cms/index.php?option=com\\_content&view=article&id=348&Itemid=402](http://jesus2030.de/cms/index.php?option=com_content&view=article&id=348&Itemid=402)) and NO/Bertha Dudde friend Gerd Kujoth

See: [http://jesus2030.de/cms/index.php?option=com\\_content&view=article&id=118&Itemid=134](http://jesus2030.de/cms/index.php?option=com_content&view=article&id=118&Itemid=134))

### **"Enemy from heaven" and "from the depths of My creation."**

‘And if the number of pure and good men shall diminish greatly as in the times of Noah, then shall the earth be ravaged once more by a general judgment, in which neither men nor beasts nor plants shall be spared. Then men will have nothing left of their fire and death-spitting weapons, nothing of their fortresses and their iron roads, on which they will run forward with the speed of a shot arrow; for **out of the air an enemy will come** and destroy all who have always done evil. That will truly be a time of true purification, as in the Temple at that time.|| [GEJ 05.108.02]

‘What I did recently in Jerusalem in the temple with the money changers and pigeon traders, I will then do on a large scale throughout the earth. I will destroy all trading houses and money-changing places by **the enemy, whom I will send to the earth from the distant skies** like a thunderbolt with much clamor and crackling. Truly, against it all the armies of the earth will fight in vain; but My few friends the great, invincible enemy will do no harm, he will spare them for a whole new breeding ground, from which new and better people will spring!" [GEJ 05.108.03]

Understand this well! Above all, do not think that I want it all this way and that therefore it would already be all so determined! All that is far from ME and you! But it will be like before the time of Noah: **men will make ever worse use of their extensive worldly knowledge and their acquired skills and, of their own free will, will call down all kinds of judgments from the depths of My creation upon themselves and finally upon the whole earth.** But there also I then say with you, My venerable Romans: Volenti non fit iniuria! (To him who wills, there is no injustice!) [GEJ 05.108.04].

The issue here is not the letter, but the meaning. Jesus created this earth in His order of cause and effect. So when Jesus uses words like "destroy" and "send" here, these terms must be understood in the context of His unchanging order. Behavior becomes a direct consequence according to the following two examples in:

‘If people want another flood, they need only **diligently dig down and pierce** the mountains, they will thereby open the floodgates to the **subterranean waters!** If they want to see **the whole earth in flames**, they need only diligently **destroy all the forests**, and the **nature spirits** (electricity) will **increase** to such an extent that the earth will suddenly be **enveloped** in a **sea of lightning!** Is it Me then sometimes, who wants to afflict the earth by fire! Therefore teach men to be **wise**, because **otherwise they themselves will bring judgment upon themselves!** However, I know that it **will happen**, and yet I cannot and must not hinder it by My omnipotence, but only by doctrine.|| [GEJ.05\_109.07].

The "enemy from heaven" and the "depths of My creation" have nothing at all to do with a heavenly body and nothing at all to do with judgment coming from God.

### ‘3<sup>e</sup> world war’

This complex of issues is "more difficult."

For almost all NO friends, the great 3rd world war is certain; a large number of "prophets and seers" speak of a great world fire. In the New Testament, Jesus speaks of one nation advancing another and of one nation rising up against another and fighting them with firearms. However, let us be aware that the prediction of a multi-ethnic war has already come true with the two great world conflicts of the last century, with World War I from 1914 to 1918 and about 17 million dead and, in particular, World War II from 1939 to 1945 and about 80 million dead.

However, let us also remember Jesus' prophecy in GJE.08\_185.09:

‘And the resourceful will drive it to such a point with these weapons, that soon then no nation will be able to start a war against the other. For if two nations attack each other with such weapons, then they will also easily and quickly exterminate each other to the last man, which will certainly bring no real victory and gain for either of them. This those kings and their army commanders will soon realize, and therefore they will rather endure each other in peace and good friendship; and if somewhere a very proud and honorable troublemaker will rise up and attack his neighbor, then the peace-lovers will unite and discipline him. And in this way, therefore, the time-honored peace among the peoples of the earth will gradually dawn and become permanently established.||

This of course refers to the era according to the development of nuclear weapons, such as the atomic bomb, i.e. the nuclear stalemate.

However, the great third world war may still come through people's wills, with especially the four aggressive countries Russia, China, Iran and North Korea

currently forming more and more of an (military) alliance bloc under their power-obsessed nationalist dictators, all of whom have started deliberately arming themselves years ago - without the West waking up and recognizing the danger. Agreements and arms deals between the four states are constantly increasing. These four dictatorships are also trying to lure key countries of the South, such as India, Saudi Arabia, Egypt, South Africa and Brazil, into their camp.

The threat of a third world war is growing rapidly. Fires are raging all over the world. What if the conflicts coalesce into a world war? The world has not been this close to another world war since the Cuban Missile Crisis in 1962.

Russia aims not only to incorporate Ukraine into the Russian Federation by force, but also to restore the Soviet Union in general. This includes pushing back NATO, weakening it as an alliance and paving the way for a military occupation of Europe.

However, a major war in Europe (and in the Middle East and East Asia) would not be nuclear. The consequences of a nuclear battle change would be too unpredictable for all sides. A conventionally waged war, however, seems calculable. The situation here is critical for Europe and NATO. They must arm themselves as quickly as possible against the approaching storm.

A major problem for Europe is the United States, weakened both internally and externally, especially by Donald Trump - the self-centered, isolationist power seeker and narcissist. The war in Ukraine and NATO do not interest Trump. However, Trump's relationship with China is very different, with Xi Jinping seeing China as the Empire of the Middle, the center of the world, and claiming to be the world leader at all levels, i.e. wanting to supplant the U.S. here. Trump could respond much more violently to an invasion of Taiwan (China is currently pushing harder and harder for a quick violent solution, provoking dangerous military incidents) than Joe Biden would.

But World War 3 is not necessarily coming. Hope dies last.

### "The Nordic polar bear"

Some NO friends interpret this as a reference to the Stalin-Nazi era and others to today's Putin-Russia, where Putin - whose hallmark is precisely tyrannical magnanimity, who knows no fear and hates Western ideology - wants to establish a new world order. Yes, we must transform ourselves into lions, lions of wisdom and lions of true inner strength.

Interview with military economist Markus Keupp on ZDF on 11.04.2024:

"... that this catastrophe will happen, in other words that Russia will prevail in Ukraine, with all its consequences. Russia is on the Polish border and the West can prepare for something that will be much worse and more brutal than this war. **This is the world historical issue that is now being negotiated and we are all witnessing it** and the outcome of this issue is open. **So the question is whether**

**the West can develop enough backbone and determination and recognize what is really at stake here.**

A Russian victory in Ukraine would clearly create enormous pressure to expand the war. Putin would capitalize on the momentum of a victory in Ukraine and launch a second military assault on Europe.

### **"Climate change and species extinction"**

Those who continue to deny man-made climate change are beyond help. The state of tipping points shows that we already have a planetary emergency. The basic mechanisms behind the tipping points have been known for years. But the fact that they are triggered much faster than expected is a new insight, as is the fact that they are connected in a cascade. It is believed that global warming of just two degrees - which will be reached before the end of this decade - could trigger the cascade, toppling Earth's systems like dominoes.

Everyone should recognize the multitude of serious numbers/measures. By 2023 there will be two-thirds fewer animals worldwide than in 1970, while the number of insects has plummeted by more than 75 percent over the same period - in Germany alone. Species extinction accelerates global warming and vice versa.

### **"Cornerstone - opposites"**

Please always remember the "cornerstone." Jesus does not want us to follow "blindly," but to be observant and not stumble over "contradictions."

A typical example of a contradiction in the Lorber work here in the "Youth of Jesus" is the confusion in the number of Cyrenius' children, in which on the one hand there is talk of three girls and five boys and then again of five girls and three boys, where it then becomes clear in the further context that they are five girls and three boys.

Jesus very deliberately makes these "errors/contradictions" for the following reasons: "To save us from blind literalism. Material numerical errors are utterly insignificant compared to the soul, spiritual, heavenly and divine truths of the work of Jesus through Lorber. Only the worldly mind of the worldly wise demands that the work of Jesus through JL must be a perfect mathematical textbook, especially in material and external terms! However, Jesus did not give humanity a mathematical textbook through JL, but a purely spiritual textbook intended to awaken our still sleeping Pure Spirit! Therefore, Jesus wrote this spiritual textbook by JL in the form of the angels' teaching method with many apparent contradictions and also some minor, outwardly material errors!"

For the same reason, for example, Jesus allowed the four evangelists in the New Testament to pass on four different, sometimes contradictory accounts of His resurrection.

[HiG.03\_42.03.28.02] 'But as to the number of women, no statement is correct, for

there were seven; only Luke remains neutral with the addition, And the others. And in John Magdalene says to Peter, "We do not know where they laid Him down. But as to the cause of this unequal number of women, this has its reason, first, in the ignorance according to which the evangelists themselves did not know the full number - and secondly, lest the women become an offence to the world - and thirdly, lest anyone should know the divinity of My Word from the number of women, but only from the living activity from the depths of his heart!"

"And similarly, we should not experience the divinity of the 'Youth of Jesus' from the number of boys and girls that Cyrenius gave to Joseph for care, but only from the living love activity from the bottom of our hearts!"

[HiG.03\_42.03.28.20] ... 'Don't be put off by such gnatishness, but become eager and true doers of the word, and you will soon encounter no more contradiction.'

### **The outcome:**

So there is "only" a "**wait**" for the **combustible types of ether to** ignite here and there and **other major earth storms of all kinds and types.**

Everyone can see every day how the earth/nature is increasingly "defending" itself against the attacks (destructive anger) of man (see cause and effect) - it's all just a matter of time!

The world's leading climate researcher, climate scientist and founder of the Potsdam Institute for Climate Impact Research, Hans-Joachim Schellnhuber, said the following about the climate crisis in an interview with "Stern" magazine on April 2, 2024. 30 years ago he did not expect the situation to become so dramatic: "We thought that the survival of our civilization was at stake, that humanity could not be so stubborn and indifferent that it would not take decisive countermeasures. The fact that people are willing to commit **collective suicide** for convenience was beyond our imagination."

We are currently in the worst era human history has ever seen and the masses do not realize it at all.

Yes, one problem is that it is difficult for us NO friends to estimate the timing of the phase of permanent decline, and yes, it is still getting worse. But according to Jesus, this time will be shortened.

We can and may trust Jesus' statements "so close to the year 2000," which Jesus made at the age of about 30/31 and **repeated remarkably often** - as an especially good, loving teacher who prepares His disciples extremely meticulously for a coming most important test and wants everyone to pass this test to the best of their ability - **TRUST!**

ANYONE should be aware that the scenario described above can and **will** happen at **ANY MOMENT** (!)

**"I come like a thief in the night." As children of God, Jesus does not**
