

Jakob Lorber Bulletin

International

Date: 15-11-2024 - number 105

Friends of the Jesus Revelation through the writing servant and writing prophet Jakob Lorber feel connected to all people of the world as creatures and children of one and the same Father. This Heavenly Father embodied Himself in Jesus Christ about 2,000 years ago and did not manifest Himself as Savior and Teacher until age 30, for three years. The spirit friends of the Divine Revelation recognize in this eternal declaration a new and great Word of God and aim to achieve a joyful mutual exchange.

The Indo-Jews from the hidden valley

As was customary in Palestine at the time of Jesus, He spent the night with His entourage in an inn and talked to the guests there. The innkeeper's attention was drawn to the fact that outside his inn, somewhere along the road, poor people were bivouacking without food or drink. It turned out that they came from a distant country, somewhere in Central East Africa. Lorber calls it "India", but not to be confused with the original India south of Asia or with Indonesia.

These people were looking for the great king in Palestine, and they already knew about this king 30 years ago. They were the descendants of their ancestors who had fled to Africa with 200 men in the time of Nebuchadnezzar's captivity in Babylon, which took them over 50 days. We read about this in detail in the GJE, volume 9, chapter 104 and the following chapters.

If we draw a comparison with Joseph's return journey from Egypt (Ostrakine), which the holy family traveled with the baby Jesus to the real Nazareth on foot and in exactly 11 days, they must have used several pack mules.

This is because a distance of over 750 kilometers cannot normally be covered on foot in 11 days. With a pack mule, a maximum of 70 kilometers can be covered in one day, at an average walking speed of 7 kilometers per hour and assuming that the distance was covered in 12 hours, with 4 x half-hour breaks, and that the actual walking time per day was about 10 hours on average. Daylight also had to be taken into account, i.e. getting up early (05:00) and at the end of the day preparing for the evening and night before 18:00, because it was already dark by 18:00-18:30.

The Jews fleeing from Babylonian captivity could have done the same, covering the distance along the Middle East coast of Africa in around 52 days.

Presumably, some of them had traveled by boat or even across the African river, the "Tane". (This would have been derived from Leopold Engel's little book "The Valley of the Happy", for example). Or via the Nile into the interior.

Even then, the following was true: twelve hours of walking = 70 kilometers (with a two-hour break) x 52 days = 3640 kilometers. This is how many kilometers the ancestors of these Indo-Jews must have covered. The distance from Jerusalem to African Abarat as the crow flies is about 3628 kilometers. So it must have been about 300 kilometers further north. However, this is only a speculative consideration! It must have been a very long and arduous journey.

Orion and the Pleiades

The large galaxies are actually beyond our grasp. We start with the moon, which belongs to the earth and is a "child" of the earth. The light seen from the earth reaches the moon in just one second. Every moon in a galaxy in turn belongs to a planet or star that is just as big and even much bigger than our Earth. Smaller Earths or planets do not necessarily need a moon. This is due to the magnetic attraction. The moon seems to have a "cautionary" or "admonishing" message. The speed of light takes 440 years to reach Orion and the Pleiades.

To get an idea or thought on this, here's what I mean: The distance between the earth and the moon is about 1.3 light seconds. The distance from the sun to the earth is 8.3 light minutes. The centerline of the orbit of the most distant planet, Neptune, is about 8 light-hours. The center of our galaxy, the Milky Way, is about 28,000 light years away. One light year corresponds to about 236 million orbits around the Earth.

Amos, the minor prophet, mentions Orion and the Pleiades: "The Creator of the Pleiades and Orion is He who turns the day into darkness", His name is the Lord. The Lord calls Himself the God of Orion and the Pleiades. (Amos 5:8,18). These are the two constellations mentioned in the Bible. In winter they are clearly visible between 04:00-05:00.

The Seven Star Cluster is an open star cluster in the constellation Taurus and is about 440 light years away from Earth. In a city you can see up to 6 stars with the naked eye, in the countryside even up to 9 stars.

Orion lies next to the Great Bear and is the brightest and most beautiful constellation in the sky. It is particularly visible in winter.

The ancient Greeks saw in this constellation a mighty and gigantic hunter in chains. The biblical Job knew about this because God asked him if he could loosen Orion's chains. (Job 38:31b).

Apparently a reference to the star belt through which the mighty hunter was connected to Orion. In Hebrew, Orion literally means "the working of light".

Jakob Lorber writes about the divine habitat: "Mostly He dwells in the eternal East". From an earthly or natural point of view, the Deity dwells in the vicinity of the galaxy 'LÖWE'.

And that is in the corresponding spiritual central sun, which includes the natural central sun called REGULUS and beyond that the whole of infinity. This name occurs more frequently with Lorber. Another name for Regulus is URKA.

Those who live there are practically immortal, and those who are still born will outlive the age of our earth.

For us, the center of our vast globe is the unimaginable primordial sun, the Urka or Regulus, Heaven and Hell, ch. 140 or part 2-299:8, which is orbited by up to seven million successive galactic solar systems as large solar universes that are infinitely large. These giant solar systems have a gradually stacked arrangement in their sequence. Each galaxy in turn consists of a central sun and its light irradiates all the

solar regions, around which millions of solar systems or solar regions orbit as galaxies.

The center or middle sun of a solar system is ultimately a central sun. Its area is for us the SIRIUS in the zodiac 'The Great Dog', vs.39, around which in turn millions of planetary systems orbit. (Source: Earth and Moon, Ch.53, HIG 2.42.02.06,08ff, GJE4-254:4,5 and GJE6-247:8).

Mallona

The planet "Mallona" was habitable 6,000 years ago and exploded shortly before the creation of Adam and Eve, the first humans on this earth. There were already people on Earth, but they were animal people, the pro-Adamites they were called. They first had to make our earth 'habitable'. But they had no awareness of God, nor was there a divine spark in their hearts.

Mark the Roman asked Jesus: "At the time of the pre-Adamites, was this earth already the certain chamber of life in the heart of the Great Creation Man?"

Said Jrsus: 'Even if not completely in the acting reality, at least in the determination to do so; as acting was in those ancient times another world body, whose people, however, went over too much into the greatest arrogance and into the fullest forgetfulness of God, and those who still believed in a God did not respect Him, defied Him and in their blindness sought to overthrow Him, as it were, from the throne of His eternal power. They sought Him, and wicked worldly wise men said that God dwelt in the center of their earth; they had to make mines there and take Him prisoner. So they dug terribly deep holes in that earth, and many perished.

When I sent messengers to them and warned them, they were always strangled, and the people did not improve. And behold, I allowed that earth to be torn into many pieces from within! And this happened at the beginning of the sixth period of this earth, and this earth became the chamber of life. But where that earth was also revolving around this sun, we will determine a little more about that." (GGJ8-74:8-10)

There is also something special going on with our earth. According to Lorber's description, the earth as a planet belongs to our natural sun. In the truest sense of the word, our earth is meant to be. Jesus tells us why and how this is so. In GJE4-106:8 the following is described:

'But how and why is this so? This earth has a most peculiar relationship. It belongs to this sun as a planet; but, strictly speaking, it is not like all the other planets - with the exception of the one between Mars and Jupiter, which was destroyed six thousand years ago for certain evil reasons, or was actually destroyed by itself and by its inhabitants - from this sun, but originally came into being from the primordial central sun and is in a certain respect older than this sun, something unthinkable to you in terms of time. But it actually only began to become corporeal after this sun had long begun its first orbit around its central sun as a formed world lump, and then nevertheless drew its actual material corporeality mainly from this sun.' [GEJ.04_106,08]

Jesus said this in the Jewish year 4181 AD. If, according to Jesus' statement in 29 AD, the destruction in the year was dated to around 6,000 BC (minus 4181), then it must have taken place around 1800 years before Adam's creation. We will come back to this later.

The planet Mallona was habitable for a long time. The name had something ominous about it: 'If the mother gives in too much, the child will not be virtuous' 'LONA means 'ready for battle'.

Note in connection with the interpretation: Mallona is spelled with two ll's.

The Earth Mallona has exploded at the hands of its inhabitants. Many of its huge boulders (similar to dolmens) are now scattered all over the earth, some on the moon and many on the natural sun. Some of these rocks even contain strange hieroglyphic signs that resemble Egyptian hieroglyphics, but which no human can decipher. [ER 1.400913.22]

The Lord commissioned an angel to split this planet into four parts. The Lord said: "You will ask why I destroyed such a world body? Look, I did not really destroy it, but divided it into four smaller worlds because a great disunity had arisen among its inhabitants. And behold, as with you the gold, the silver and the diamonds, **so on this planet these white stones were true stones of transgression.**" [HIM 1.400913.18]

Mallona was a very large planet, up to 2,000 times larger than our Earth. Now it has become scattered 'pieces' orbiting in space like small dying planets. Ceres is the largest, the fourth. Mallona also had several moons. These have remained intact. But since there was a magnetic connection to 'Mother Mallona', this magnetism no longer exists, and these moons are also gradually withering away. Only a few natural people (beings) still live on these moons and the consciousness of God is unknown and

alien to them. The largest of the 4 minor planets is not yet as large as our moon. Life there is very poor. Just like on our moon.

The Lord discusses with his friends and disciples how the disintegration of Mallona took place.

When I sent messengers to them and warned them, they were always strangled, and the people did not improve. And behold, I allowed that earth to be torn into many pieces from within! And this happened at the beginning of the sixth period of this earth, and this earth became the chamber of life. But where this earth was also circling around this sun, we want to find out more about that. [GEJ.08_074,10]

'We had seen **at the beginning of the sixth period** how a world body was destroyed from within and how, with Adam, this earth became the chamber of life in the Great Creation Man' (our earth) (GJE8-75:6).

Seven large giants fell from Mallona onto our Earth. Normally they remain suspended in the etheric air from such an extraordinarily great height, as with our moon, but it was arranged from above to regulate the downward pressure so that the dead bodies could pass through the atmosphere at high speed without burning up. This was because their clothes remained intact and the bodies were scattered on the Egyptian soil. This later had a great influence on clothing culture. It took a long time for the bodies to decompose.

The desiccated dead still sit or lie on the small areas (the four fragments of Mallona) in the houses today. A piece of Mallona is still much larger than the Earth. The corpses of the many giant humans still float around in space today. The seven human giants of Mallona fell in the upper part of Egypt and their fall lasted 10 days.

This event took place in the time after Adam, for the Lord speaks of the primitive people of Egypt who were familiar with the divine spirit. It is only granted to all people on this earth to become children of their Creator. This is the greatest grace that can be bestowed on a human being. Everything that exists outside this small earth, i.e. all the countless myriads of celestial bodies, suns and stars, whose inhabitants can only become children of God by incarnating on this smallest earth in the universe.

On a hill, Jesus was asked a question, because through Jesus' actions their eyes were opened and they could all see the life on the stars. Similarly, someone studied Uranus and asked Jesus about it.

One man who was spiritually transported to the surface of a distant wandering star, namely to Uranus, asked Me whether those many and very strong people he had seen there were already a kind of blessed. At least he thought they were; the only thing that surprised him was that he had seen them working much more diligently than even the most industrious people on this earth. He had also seen many great buildings and many that had been built with great zeal. Now he wondered whether in the kingdom of heaven the blessed would have to build their houses in the same way as people here on earth.

'Then I said to him: "In part, yes; but the people you have seen on that world are by no means spirits and therefore also not blessed, but for that world they are just as material people as you are here on this world body, only with the difference that you earth people alone have the goal of becoming children of God, while all people on all the countless myriads of world bodies generally do not yet have this vocation, although they are not completely excluded from it. But much more is involved there than here on this earth, which was destined for this from the very beginning.

There was indeed another great earth which received light from this sun. It also had the same destiny, but its people had overreached themselves too much, and therefore it happened that a great judgment came upon it, just as this earth has not fared much better before.

That earth was completely destroyed and shattered, and with it its people, who had become proud and vicious beyond all measure' [GGJ5-275:8-10].

Ceres (dwarf planet) is currently one of Mallona's remaining planets. The inhabitants of Mallona have voluntarily destroyed their own planet. They had gone too far. They didn't actually know what the consequences of drilling deep into their earth would be. But the Lord had to allow it so as not to interfere with their free will. Originally, Mallona was supposed to be a prison for Lucifer and a school for its inhabitants, where they would learn to become children of God.

The destruction of the planet Mallona took place around 30 years before the creation of Adam. In place of Mallona, the earth was given as a breeding ground for humanity. The Lord had foreseen this for a long time. In a sense, a shift took place. Mallona was originally located between Mars and Jupiter, a million kilometers from Earth.

Our moon has been added to the earth, and its function in Lorber is the outflowing power of the moon, which is absorbed by the earth for what its mother earth needs. And what then remains, the earth will give back to her moon (Earth, ch. 1:2).

There are even smaller Earths than ours, but they generally don't need a moon. Mars is much smaller than the Earth, but still seems to have two small moons. Pluto, which is smaller than our moon, also seems to have moons. Mallona had four moons, which are still orbiting between Mars and Jupiter. These are shrinking more and more, as is life there, as will be shown below, for Jesus says about this:

'Behold, thus the order stood from now on counted back about four thousand years. But then the destruction of this planet that was indicated to you happened. I have already told you how and why it happened. But now see what the planet looks like after the destruction!

'Everyone now looked at the planet, which now split up into many larger pieces. Only the four moons remained whole; but as they had lost their central body, they became disordered, and they became more and more distant from each other, also because they had received a very noticeable shock from the bursting of the main planet.

'But the pieces of the planet broke up in the very wide space between the orbits of Mars and Jupiter. A large amount of smaller debris also moved beyond the two

indicated orbits, and some fell into Jupiter, some into Mars, some even onto this Earth, into Venus, into Mercury and also into the Sun.

(The Lord:) 'Yes, even the physically very gigantic humans were thrown out into the open celestial space in large numbers during the bursting of the planet, as were the other creatures. Some withered corpses still float around in the vast etheric space, some sit and lie dead and completely withered in their houses, which still exist on the larger planetary debris; some of those human corpses even fell on this earth, on which they were dissolved after several hundred years, and so also on other planets. 'During the bursting, the great seas of this planet, together with their inhabitants of all kinds and species, were divided into larger and smaller drops, some of which have a diameter of many hours, also contain more solid earth and are still inhabited by some animals. On the four moons, however, the earlier creatures still live, only in a more atrophied state, thus also on a few of the largest pieces of the planet, but in an even more atrophied state; on the smaller debris, however, there is no organic life except that of weathering and slow dissolution.' [GEJ8-75:8-12]

Jesus reports on the inhabitants of the destroyed celestial body Mallona in chapter 76 of part 8 of the Gospel of John as a revelation.

Jesus: 'This does not mean that this earth, on which we are now, should be the main point of affirmation. It could also be another earth belonging to this sun, and another was already destined for it; but its inhabitants behaved much more unworthily than the inhabitants of this earth now, and so that earth was rejected and laid waste together with its inhabitants.

'But since this earth has been chosen for this purpose since the time of Adam and I have now assumed the human body on its soil, it will remain as such until the end of the times of the judged spirits in all matter, and you will also remain the bearers of the original basic life in all infinity and eternity in the spirit from Me and therefore be My true children' (GGJ.08_057,05,06]).

The time sphere period of liquidation

We humans are "influenced" with good and bad forces by the spiritual forces that surround us. Since humans have free will, they can consciously or unconsciously choose between the good and the bad, and such influences happen, albeit imperceptibly, so that free will does not lead to illicit coercion.

Jesus already predicted in Palestine that there would be a 'new teaching of truth' in the distant future (around 2,000 years later) and that he would renew his 'old teaching'. Today we would say: a universal 'update'. This teaching will definitely also be necessary for the later peoples. Today we belong to these peoples because we have now become a part of them. So there is a difference between the content of the old and the new teaching. Jesus said about this:

'Behold, My beloved ones! What the pagan books say about it is only a highly mutilated echo of what has been revealed brightly and clearly to the primitive people of this earth by the same Spirit who now dwells in Me.

'Only the Scriptures of the Jews alone contain the full truth, not revealed, but veiled in corresponding images, for the wise reason that the holiness of the truth contained therein may not be defiled and desecrated by the real, filthy children of this earth.

'For there are two kinds of people living on this earth or world. The actual and most of them are pure from this earth according to the orderly sequence of stages of the creaturely ascent of the soul and the body, and they can be called 'children of the world'.

'A much smaller proportion of the people on this earth, however, are only from this very earth in body, but in soul either from the various star worlds or sometimes even as the purest angelic spirits from the pure spirit heavens. So far, however, these are the rarest.

'This second and much nobler kind of men of this earth can be called "children of God", and to these alone it is also reserved to grasp and understand the mysteries of the Kingdom of God and, according to need and ability of conception, to teach such to the children of the world and to show them the way by which they too can become children of God and citizens of His Kingdom'.

'Well, these actual worldlings, as they have only just emerged from the mud of this earth, are of course still very sensual, since their souls have never yet undergone any kind of human preschool of a free, self-determining life. They can therefore initially only be led to the realization of a supreme and eternal spirit of God through purely sensual images.

'And see, because of most people on this earth, the revelations about the realms of the spirits are also shrouded in certain sensual images, which can only be revealed to the children of God from time to time more and more, according to the comprehension of the children of the world - but never too much at once, but just as much as they are able to tolerate and digest in their spiritual stomachs. From what has been said, however, you can already draw many a conclusion' (GJE5-225;1-7).

The Lord teaches us what we can bear and what people themselves have thought about. The Lord always teaches each person according to his abilities. A truly serious and religious person will never serve two masters at the same time, i.e. pursue all worldly splendor and hold on to God at the same time. (Matth.6:24-34, GJE8-77:14)

The final kingdom of peace will come, but before that there will be a great upheaval in the world. This kingdom of peace will not last 1,000 years, but until the end of the material earth. The scales of wrath that will be poured out are people's own causes. People have brought the problems (misery) upon themselves. And God will allow it. In fact, people themselves cause their alignment with what they have always aligned themselves with.

Who remembers the time of the obligatory mouth caps with which one was gagged, so to speak)? Who remembers the sticks in the nose for a health test?) They used to do that with slaves too! And the so-called vaccines with unknown nanoparticles that are injected into the body... Veronika Luecken wrote in her day: *"And those who have mixed their blood with the poison will be caught like 'wild animals!'"* (Veronika L. was a prophetic and clairvoyant medium: (July 12, 1923 - August 3, 1995)

At the moment, the whole world is upside down and mankind is burying itself in its own material pleasures. (At the right time, the Lord will come with His Word to all people who long for it in their hearts. (Heavenly Gifts, Part 2) Jesus says: 'That a time of joy will follow the more than millennial struggle (i.e. almost 2,000 years!). People will begin to be "human" again, just as I have created them and want them to be, and they will be called My children!

Jesus says: 'I will take a very close look at the number of those who carry out My word. If there are still ten pure people on the whole earth, then I will postpone My coming judgment for another 1,000 years' (Verb. Bible texts, ch. 13).

The Lord's "judgment by fire" on earth will lead many people through all kinds of trials onto the right path so that they can mend their ways. But real fire will also come upon the earth. This will gradually arise here and there. Think of the many forest fires all over the world. Sooner or later, the skies will be saturated with flammable etheric substances that will ignite here and there. Then there will be major storms, hurricanes and earthquakes of an unprecedented nature. But not everywhere. For Jesus says:

'Once such activity and activity will have reached its highest point through the power of fire, then the earth's air will also be filled too powerfully with the flammable ether species at such points, which will then soon ignite here and there and turn such cities and regions into rubble and ashes together with many of their inhabitants; and that will then probably also be a great and effective purification. But what the fire caused in this way will not achieve, other great earth storms of all kinds and species will achieve where it will understandably be necessary; for nothing will be burned and destroyed without need.

'This will also free the earth's air from its evil vapors and natural spirits, which will then exert a beneficial influence on all other creatures on earth, and which will then also serve the natural health of people so that all the many and evil bodily diseases will cease and people will be able to reach a healthy, strong and old age' [GEJ.08_186,06,07].

'If men want another flood of sin, they must only diligently dig down and through the mountains, and they will thereby open the floodgates to the subterranean waters! If they want to see the whole earth in flames, they must only diligently destroy all the forests, and the spirits of nature (electricity) will multiply to such an extent that the earth will suddenly be enveloped in a sea of lightning fire! Will I then also want to afflict the earth with fire? Therefore teach men to be wise, otherwise they themselves will bring the judgments upon themselves! But I know that this will happen, and yet I cannot and must not prevent it through My omnipotence, but only through teaching' [GGJ.05_109,07].

It is not only Lorber who says that an 'enemy from heaven' will cause great damage to the earth. And this 'star' has long been on its way and is steaming towards the earth and will orbit the earth several times and come closer and closer until it grazes the earth.

Veronika Luecken has seen a vision: *'A ball of fire comes out of the cosmos. It spins quickly around itself and passes behind the moon. The moon looks blue on one side, part of it seems to be melting.*

On the right side of the moon, it reappears as a glowing star, sparks flying far away like firework candles. The colors are deep red and orange. Now, as the sphere approaches, it becomes very hot, parts of the sky turn white....Water rises on the earth, 15 times the height of normal waves.... Buildings collapse, wreckage drifts by....Then a huge celestial sphere, like a glowing sun, floats out of the atmosphere and trails a tail of fire behind it, whirling along the sky towards the earth at great speed. Unbearable, fiery heat everywhere - the cities are in flames and people are running for their lives, falling, and many are looking for candles, but the air is heavy and stuffy, there is no oxygen, even the candles are not burning.

All the lights on earth go out. The sphere spits out huge clouds of hot dust that fall down, coughing fits. Great chunks of stone begin to fall, people run in all directions, but there is no safe place...' (HG 1.1.12) This is what the great Orion says through his great dog. Amen, amen, amen. (HIM 3.420725B.9)

When Lazarus asked what time period Isaiah 4 and 5 referred to, Jesus answered him: "About two thousand years. At that time (period 2,000 AD) My teachings, i.e. Christianity, were worse than Judaism and paganism together now. There will be spiritual distress among the people" (GJE6-149:1)

Jesus predicted our next time: 'Towards the end of the time indicated, I will also raise up ever greater prophets, and with them the judgments will also increase and become more extensive. There will also come great shakings of the earth and very devastating storms of the elements, great famines, wars, famine, pestilence and many other evils, and, as I have already noted beforehand, faith will not be among men - except in a very few - who will grow cold in the ice of human pride, and one people will go against another' (GJE6-150:15).

Before the Lord himself returns to earth, people will first be warned by seers and special signs in the sky. Worldly people will take all this for rare natural phenomena. A small number of the Lord's followers will disturb this.

People will also be warned through seers and special signs in the firmament, but only the few of My Own will pay attention to this, while the people of the world will only regard all this as rare effects of nature and will spit it out in front of all those who still believe in Me. But then a greatest revelation will happen through My renewed return to this earth; but this revelation will already be preceded by a greatest and sharpest judgment and followed by a general sifting of worldly people through fire and its projectile, so that I Myself will then be able to establish a completely different nursery for true people on this earth, which will then last until the end of the times of this earth. [GEJ.06_150,16,17]

Humanity will soon face a judgment, as at the time of the Tower of Babel and Sodom and Gomorrah. This judgment will take place IMMEDIATELY. And it will also be the last judgment on this earth.

Many will be thrown into dungeons for My name's sake and will be forbidden to speak in My name under threat of severe punishment. The sign of the Son of Man in heaven means heaven in man, and whoever sees this and is united with the Lord, his soul will praise and recognize him as the only Lord of heaven and earth and will give him the highest praise. (GJE6-174:1-9)

Man will never be judged by the Lord himself, but by his word. (GJE6-174:12, Matt.24:37-39, Luk.17:26-30). A great sign will be that people will mock the New Word.

We are certainly living in questionable times. All kinds of minerals that the earth itself needs are being extracted from the earth. Basic materials such as oil and gas are being used at the expense of poor citizens. The escaping gases eventually saturate the atmosphere. If these gases ignite today or tomorrow, the lower atmosphere will also ignite and become a great conflagration in which, Lorber writes, neither humans nor animals will be spared.

In conclusion. The author John wrote the biblical book of REVELATIONS as well as three letters. The New Revelation of John was put into the mouth of the evangelist John in the afterlife (as an angel). Lorber was allowed to receive it from the Lord. Jesus says that we should primarily stick to the writer John because his writings contain inner spiritual things.

What John wrote applies to the whole of eternity. For everything you write conceals the purely divine reign from eternity to eternity. Through all creations that already exist and also through those that will replace the existing ones in future eternities! (GJE1-113:10) What Matthew writes has special value only for this earth.

In the next issue: another good thing to share with each other!
