

Jakob Lorber International Bulletin

Magazin in German, Dutch & English for the searching man on his way to his own inner sky, which will come in contact with His creator and about that to come at a common joyful mutual Exchange

April, 2016 Nr. 6

www.zelfbeschouwing.info

E-mail: zelfbeschouwing@gmail.com

Dear friends of Jakob Lorber and relate servants such as Emanuel Swedenborg and Gottfried Mayerhofer and further writer of our Lord Jesus

This time a small treatise on the cosmological relations between gravitation, microcosm and macrocosm and the analogy between these two; that multiple universes and suns exist. Albert Einstein has brought science partly on the wrong track. -Partly taken from the article sent by Wilfried Schlätz- [A tough legible part, but very interesting!] Why prayer is so important, with regards to health, by Klaus Optiz. Once again, international reactions on broached topics such as abortion, with additional information.

-Once more, we wish you a blissful enjoyment in reading-

INTROSPECTION – SELF EXAMINATION

Contacts and reactions

We received friendly and useful responses to Jakob-Lorber-Bulletin Nr. 5.

Comments will be published to the incoming order, again:

Gerard

The send copy [preferably between the 15th and 20th of a month] is processed in the next issue. Incoming copy outside the specified dates is then postponed and is naturally included in the subsequent publication.

=====

Wilfried Schlätz from Germany

Dear Gerard,

1. I refer you to two new interesting items:

A3222 - (gravitational waves) and A3217- (the macrocosm) - Both can be viewed on the website www.jesus2030.de.

For your newsletter, the macrocosm is in any case too long and the gravitational waves are probably too!

Warm blessings!

Your Wilfried

Answer

Dear Wilfried,

The proposed themes are of such a nature, that this extraordinary fascinating study material should not be disregarded. Some things had to - as you have said yourself - largely be shortened. But the full text is in any case fully traceable on the homepage, indicated by you above www.jesus2030.de. [Though, in German of course!] - So, I gave myself permission to summarily [shortened] publish your set out points about these gravitation waves. [with some illustrations] Although every point is essential, I have assumed this was okay.

With great thanks. The abbreviations of the names used in Dutch and English are, of course, different than those you wrote in your native language. With great thanks. G.

=====

Reaction from the Netherlands

Dear Gerard,

Thank you again for the bulletin!!! A practical request: would you please like to reduce the margins and the images. It cost a fortune to the paper and ink to print the bulletins. Further I wish you God's blessings on all your activities!

Answer

Dear Adriaan,

Regards the ink and paper, they were not taken into account [to print it!] and that is actually also a bit difficult for me. I will 'try' to place the illustrations not too large from now on, although occasionally there is something special emphasized with it. Yet it would restrict us somewhat, dear A. However, there is understanding for your suggestion [with the extra March issue of 30 pages!] When even more similar comments come in, this will be given an extra hearing.

Perhaps I may provide you an indication: When you print this bulletin [in color or black and white?] provide you an used Oki laser printer in black and white [The best and most durable printer in the world!]. That is very advantageous!!! Thanks for your tip, Adriaan. G.

Theme to think about: [German language!] Did God ever Sin? Source: 'heavenly gifts', Band 1, p. 187 et seq. or from: <http://www.j-lorber.de/jl/him3/him3-075.htm>-<http://www.j-lorber.de/jl/him3/him3-080.htm>- Tip: when reading the 075.htm this .htm can turn into 076.htm, 077.htm etc. then give enter.

In the following topic we still find a small afterthought—thus, an addition to that what has already been described in the previous bulletin by Klaus Opitz.

The theme Abortion:

by Wilfried Schlätz

2.0. Theme abortion

2.1. Jezus by Jakob Lorber (JL):

[Earth and Moon-01_050,02] There is very little difference between the procreation of a human being and that of an animal. The difference is more in the inner self.

3) *The soul of a human being must be completely in existence. This means that she must unite all such substantial specifics that were previously dispersed throughout the whole universe, and these must be supplied to her from all sides.*

4) *The soul is because of that such a complete substantial compendium of specifics. The specifics in the soul, however, are so mixed up chaotically, that you might say that before procreation, the soul is a snarl (Gregorian knot) that must be disentangled first in order that she may acquire her specified form. This disentanglement begins with **the procreation act, because it is there that the Gregorian soul-snarl is placed in the mother's womb and enveloped.***

5). Within this shell the intelligences that correspond with one another begins to approach and hold onto one another. The spirits provide them with the light in their shell so that they may accomplish this task. The substantial specific intelligences recognize one another in this light, segregate, take hold of one another, and unite. All this occurs at the urgent request of the spirits' will, which are entrusted with the supervision. These spirits are what you would call "guardian spirits." Angels and higher angels will also exert their influence. Every human being has at least three guardian spirits, two angels and one higher angel; and above these watches a seventh, Whom you know well.

2.2. Thus, In the fertilized egg the whole soul is already present and wrapped!

2.3. If a 90-year-old elderly, who still has a life expectancy of two years, **is assassinated**, then they take away about two years of his Earthly life and therewith thus the soul's possibilities for its development in these two years!

2.4. If with the implantation of a fertilized egg, which contains a complete soul, the implantation is prevented (by the pill) or otherwise somehow aborts, then one deprives this soul, the soul's development opportunities for a complete life on Earth!

2.5. The killing of the embryo is psychic-spiritual worse than a murder of a 90-year-old, because in one single hour of Earthly life, a much greater progress can be reached than with a 1000 years in the spiritual realm.

2.7. Jezus through JL:

[GGJ.06_013,10] Here is an hour counts more than a thousand years there! -
[GGJ.06_014,08] Here is an hour better than a thousand years there !

2.8. 24 hrs. * 365 d = 8760 hrs. per year 1000 year = 8.760.000 hours!
The growth rate of the soul in an earthly body can be 8.7 million times faster than in the spiritual realm! Because the earthly body is an extremely wise, mature and suitable equipped [souls] test-machine that we should not destroy.

2.9. Jezus through JL:

[GGJ.02_210,02] *The soul indwelling such body initially is of course not much more pure than the body, because it derives from the unclean, arch-primeval soul of the fallen Satan. **Actually the body is for the as yet unclean soul nothing more than an exceedingly wise and well-attuned purification machine.***

Is homeopathy described in the Bible? Please response! The answer in the next edition! ...

The now following topic is illustrated here and there, to optimize the imagination power even more!

Gravitation

and

Macrokosm

by Wilfried Schlätz

1.1.2.) The material World-body consists of fallen spirits.

(1.2.2.) The core of the Earth has an organism, which resembles that of an animal, provided with an Earth heart, Earth stomach, Earth lungs, spleen, liver, kidneys, etc. from completely different than the 92 chemical elements that we have discovered on the surface of the Earth and in the air.

(1.3.2) The Earth can, only by a suitable drive, rotate for 24 hours around its own axis.

(1.4.2.) The Earth can move itself, by a suitable drive, only one time a year around the Sun.

(1.5.2.) Ebb and flow are almost only caused by the breathing of the Earth, whereby the entire Earth's surface rises for six hours and lowers back in the following six hours.

(1.6.2.) On the rear side of the Moon are air and water so that plants, animals and human beings can exist there. Without this [rising] evolution ladder, (such as) minerals, plants, animals and humans, was for the in the Lunar matter banned and imprisoned spirits no salvation and return in the matter free spiritual world (hereafter) possible.

the far side of the Moon

(1.7.2.) The 92 natural chemical elements, discovered by us on the Earth's surface and in the air, are only valid for that area. In the Inside of the Earth, and especially on and in all the Suns and in the whole cosmos, there also exist completely different and other precious chemical elements.

(1.8.2.) Because there are on both largest and diverse sun areas particularly other precious chemical elements, from these elements, a precious kind of energy-rich gas can be formed, which when burned, produces enough energy for our entire universe.

(1.20.2.) Jesus reveals the mind through the heart by Jakob Lorber, that SIRIUS is our Central Sun of 4th grade around which our Sun -that directly circles our Earth-orbits once in the 28000 Earth years. Together with our Sun, about 200 million neighboring planetary Suns are circling around Sirius. They form our local Globular Star cluster whose Center is Sirius. Sirius has to have for that reason a diameter of 10^{13} km [= 1 light-year (LY), which is the distance that the light travels in 1 year] to be able to control with its huge mass [gravity] the 200 million planetary Suns with all its planets and comets.

The Regulus is according to the book of revelation, even the (primal) Central Sun of the first rank, the center of our local Universe and must, therefore, have a diameter of 10^{49} km (= 10^{36} LY) to control with its huge mass [gravity] the jointly 7 million super stacked galaxies from which our local universe is composed.

1.21.2-The galaxies did not splash explosively apart. Therefore, there was no big bang!

Very many ancient created spirits, which from the light of the 1st, 2nd and 3rd staircase evolved, and also became (partly voluntary) selfish, haughty and imperious in every matter, changed at the end of this process in the first Central Sun of 1st grade. Each universe is, as it were, a great man of Creation for the matter, which all alone, in the endless ether sea of space is circling, around an unknown center with 10^{60} x light speed. It is the last embodiment of the entire matter, that by the Fall (a voluntary selfishness, pride and thirst for power) concerned 1/7 of the ancient shaped spirits.

(1.23.2.) According to the revelation of Jesus, we all move along with the Great Cosmic Man 10^{60} x light speed. That is why Einstein's theory of relativity is incorrect!

Red. addition: According to Jakob Lorber is the "Shell globe", the name for the grouping of tens of millions times tens of millions of Suns, which as central Suns of the first, second, third and fourth class, together with the countless planetary Suns like of our Earth is one of them, move all around in large extensive orbits to one common, immeasurably great center-point, consisting of an almost infinitely large Main Primeval Central Sun.

Countless of such shell globes, which are for people unthinkable large distances away from each other and filling the eternal infinite space, are called as a whole "the Great Cosmic Man". [GJE2-57]

2.1.1.The Great Material Man of Creation is described in [GGJ.02_057,01]. *Everybody now retired and slept until the morning had dawned. Also I rested and slept for a few hours. The two angels, however, attended during the night to their duty of managing worlds and at sunrise were already back with us, came to Me, thanked Me and said: Lord, everything is in the best order in the entire Great Cosmic Man. (= the Great Material Man of Creation)*

2.1.2. The great Main Center Suns in Robert Blum-2-299-8.

2.1.5. RB-298-7 and GJE6-245-05

2.21.1. The Earth is certainly not a small heavenly body; the visible Sun is thousand times a thousand larger than the whole Earth. [10^6]

2.2.1.2. Sirius is more than ten times 100,000[10^7] larger than our Sun, which lights our Earth. SIRIUS has a diameter of $10^7 \times 10^6 = 10^{13}$ km] [at paragraphs **2.3.6-23.8 and 2.4**] and in the paragraphs **2.3.6-23.8 and 2.4** - Heaven and Hell in Robert Blum 2-298-6,7,8 and 299.

1. Stance: Albert Einstein has in both relativity theories (in the General and in the special) developed main ideas respectively main concepts:

1.1. The speed of light (300,000 km/s), has to be the speed limit for any matter-body. When a matter-body (a matter mass) flies exactly as fast as the light, then a mass is infinite. It follows:

1.1.1. A Sun should not be able to fly faster than light.

1.1.2. The light particles (photons) may **not** possess mass (matter). Because when they would possess even the smallest amount of material mass, then this smallest mass must become infinitely large because, after all, the light particles are flying with simple light speed.

1.2. If a space ship for example moves almost as fast as the light, then the following should occur:

1.2.1. The time should be stretched (dilatation of time); for a cosmonaut, for example, that moves with this spaceship almost as fast as the light, only four years are passing, but on Earth, for example, in these four years, 40 years have passed. If the astronaut would leave the Earth now of, then his young wife was 20 and his little son 1 year old. When the astronaut returns to Earth after **his** four years, 40 years should have passed on Earth, thus his wife should be 60 years and his son 41 years old!

1.2.2. As long as the spacecraft flies almost as fast as the light, just as long the spacecraft must be that smaller, because all the lengths, widths and heights will have to contract and shrink, (length contractions).

1.3. The three dimensions of space (length, width and height) should, together with the time, form a kind of fourth-dimensional space-time.

1.4. There must at gravity (gravitation) occur some kind of waves: gravitational waves.

2. Positioning:

2.1. All these concepts and ideas of Einstein are incorrect and are in contrast to the eternal order of God:

2.2. Any physical mass of any material form can move faster than light, whereby the mass of the body does **not** increase or becomes fully infinite, whereby the size of the body is **not** reduced.

2.2.1. Jesus by Jakob Lorber (JL):

[GJE.06_248,03] *From this you can see, that also the shell-globes must have their movement, and their axis rotation which is tremendously quick, is already more than sufficient for its own large requirement; and even more extensive is the movement of the great cosmic man ("Great material man of creation" =GMMC) in the large, totally free ether space.*

*The speed of his movement in an endlessly large circle is extraordinary so **that he moves within one moment the distance of a thousand shell-globe widths**, but nevertheless requires one-hundred times thousand times thousand sun years to reach his starting point again.*

2.2.2. Jesus by JL:

[RB. Heaven and Hell - 02_299,08] *This is a Main and Primeval Central Sun, around which exactly seven million Space Universes revolve and move. It is also exactly one million times larger than all seven million collectively. **Its diameter amounts to two octillion of your earthly miles.***

Light, with its enormous electromagnetic velocity, calculated at forty thousand German miles per second [300,000 km/s] would take many thousands of trillions of earth years [about 2×10^{36} light years] in order to arrive from one pole of this sun to the other!"

[RB. Heaven and Hell-02_299,11] Robert says: *"It would take light many thousand trillion years to travel from one pole to the other?" O Lord, o God, what a terrifying size! [Our Primordial Center Sun (PCS: Regulus = Urka with a diameter of 10^{49} km = 10^{36} LY (1 LY = 1 light year = ca. 10^{13} km = distance, which light travels in a year]. How far must such a Sun be away from our Earth to be seen from here as a luminous point? ' I say: '**some ten million miles** [= 10^{61} km = 10^{48} LY] is enough to get her to the apparent diameter of Venus. A further calculation should be a pleasure for you!"*

2.2.3. For our Primeval Center Sun (PCS): Regulus is at least 10^{61} km = 10^{48} LY [light years] away from our Earth, than **our** shell globe must have a diameter of at least 10^{62} km = 10^{49} LY.

A **shell globe distance** = the diameter of a shell, and is at least 10^{62} km = 10^{49} LY per second and explains the Great material man of Creation (GMMC).It moves in four seconds four shell globe distances, this means, it travels at least: $4 * 10^{62}$ km = $4 * 10^{49}$ LY in one second! Because the light travels only 300,000 km = $3 * 10^5$ km in a second, thus the GMMC moves itself by the following factor faster than light:

$$\frac{4 * 10^{62} \text{ km / s}}{3 * 10^5 \text{ km / s}} = 10^{57}\text{-fold}$$

2.2.4. Thus, the Great Material Man of Creation (GMMC) moves **with us**, with our Earth with our Planetary Sun (PS), with our Sun Area (= SA = Sirius = Centre of our local (global) Star Cluster), with our Sun Universe (= SU = Center of our Galaxy = our Milky Way and has a Galaxy central Sun), with our Space Universe (=center of our Super Galaxy Cluster) /Galaxy cluster Central Sun) as with our Primeval Central Sun Regulus (PCS)= center of our local universe = our Shell globe) thus moves also with our shell globe (= our Local Universe) with a 10^{57} x light speed (10^{57} times faster than light!) around a to us unknown point in the infinite space.

2.2.5. So, because matter (physical) mass can move itself with 10^{57} x light speed, therefore, the hypotheses of Einstein in the figures: (1.1.) to (1.4.) are wrong.: [Note red.: see below www.jesus2030.de]

2.2.5. – 1. Physical masses can fly 10^{57} times faster than light.

2.2.5. – 2. For that reason, also the light particles [photon] can have a very small mass, because the light flies with a **singular** and not with 10^{57} -fold light speed. Jesus expressly confirms that the light particles possess a very small matter-mass:

2.2.5. – 3. Jesus through JL:

[The Fly-. 01_008, 11] *This question is really very easy to understand and answer, as you surely have to accept that the outgoing ray, which is contained in time and space – even though it is undeniably subtle – **is certainly something material nevertheless**. This question Jesus tells in 'the fly', chap. 8, that by the confluence of many light rays (interference) matter clouds and eventually new comets are formed which would be impossible if the light particles weren't equipped with a very small material mass!*

2.2.5. – 4. For a spaceman, who flies with a spaceship, with a multiple light speed to the other Suns and planets and returns to Earth after four years, **exactly the same material, (universal) time** of four years went by as on the Earth, so that his wife and his little son here, for example, became only four years older, when he was on his way for 4 years

2.2.5. – 5. The by Einstein postulated (claimed) contraction of the length does not exist. This means i.e. a spaceship, that flies with multiple light speed is **not** much smaller, yes maybe slightly smaller, but it retains its size.

2.3. There are also no gravitational waves:

2.3.1. Since there is **only one material universal time**, that applies to the entire Great Material Man of Creation (GMMC), it is also impossible with the **three dimensions of space** (length, width, height) and the total other material time to tinker (put together) a four-dimensional "space-time" !

2.3.3. According to the article: "Macrocosm" (A3217) - the head mind has abolished all Central Suns for example, the Galaxy central sun (GS) in the center of each Galaxy (Sun Universe) is replaced by a different Center of gravity: replaced by a "black hole" or a quasar (quasi-star). A "black hole" would be the tiny rest of a dying Planetary Sun. This Sun leftover has to have such a tremendous mass and gravity, that even the light particles (photons) are being held and can no longer fly away so that no light can reach us anymore and we can't see this "black hole".

Thereby this "black hole" = a "dark matter" should represent a great invisible mass. The above article shows that there are no "black holes", but that in the center of each Sun Universe a Galaxy central Sun (GS) stands with a diameter of 10^{19} km = 10^6 LY, which manages the galaxy, nourishes and holds each Galaxy together.

2.3.6. In the cosmic reality, there can be no collision of two Galaxy Suns (GS) or instead: the collision of two "black holes". Because Jesus arranges through his Angels, the Central Sun and Planetary Sun in each Shell globe (= local universe) always and continually, so that such disasters cannot exist [prevent]. Because this countless many people on the 2 Galaxy c Suns (GS), on the 10^6 Area Suns (AS) which orbits around each SU(GS), at least 10^{12} Planetary Suns (PS) which orbits the 10^6 AS, and the least 10^{13} planets which orbits the 10^{12} PS, would die, where by the salvation of the material and the spiritual way would violently be interrupted.

2.3.7. Gravity (i.e. the attraction of the Earth which keeps us on the ground) however, is a force, not a wave and it arises because there are material intelligence specifics (smart, specific, individual elemental creatures) present in all matter, whose love is focused downwards to the Centre of the Earth:

2.3.8. Jezus by JL:

Iron is heavy. This heaviness is caused by one {matter intelligence-} specificum, which ascends from the interior of the Earth. That is why it always pulls in the direction of the place whence it was banished for long periods of time, even though it is now bound to this metal. The pull of heaviness in this specificum is the same as love for the below. [Earth and Moon-01_045,07]

Notice furthermore the hardness of iron. This distinctive specificum conceals within itself the separate intelligence of total selfishness, and with it, of course, hardness towards any neighborhood. This specificum is also from below.

2.3.9. Jezus by JL:

[GGJ.04_105,01] (The Lord:) "Consider how people are now becoming so materialistic through self-love, arrogance and the resultant desire for domination, that for many thousand times a thousand years they will not be able to be completely free of it. There were also spirits created in primordial times, who became too **self-obsessed, acquisitive, arrogant and finally domineering** because of the stimulation they received. The result for them was **materiality in a completely pure form.**

[GGJ.04_105,02] They have isolated themselves in large communities and have established themselves in for you unimaginably distant places. Each community no longer wished to hear, see or know anything about any other community in its desire to immerse itself in self-love in a world-wide sense.

This continuous increasing obsession with self-love and lust for domination, together with the increasingly prevalent arrogance which it caused as well as the compelling tyranny, finally made a countless number of life forms to shrivel into an exceedingly large cluster under the pull **of the laws of gravity, a cluster which had itself developed from that same self-love and selfishness.** This completed the physical Primordial Central Sun in one shell-globe.(PCS)

2.3.10. Jezus by JL:

[GJE.04_108,02] Self-love is the father of the lie and of every evil which arises from it; but the lie is the old, **sinful substance, which is in fact nothing other than a loose, sinful display of self-love, selfishness, arrogance and lust for domination.**

2.3.11. The gravitation = gravity is thus a result of self-love and selfishness and as well as a fundamental property of all matter which consists only of self-love, selfishness, pride and thirst for power and respectively gave rise there! For this reason, the gravitation is a **soul-based feature** of the 'fallen ancient spirits ' and has nothing, absolutely nothing to do with a real gravitation process [a stone thrown in to a pond]! There are no "gravitational waves"!

We thank Wilfried Schlätz kindly for his useful applied theme!

Private note Cosmology

A week before this actual topic from Wilfried came on the editing table, I received a fictional dream about a space trip. With two other astronauts, I took place in a capsule, waiting for the go-ahead, to be launched into space. First, I felt like a 'guest' in the space capsule. Suddenly I lost consciousness and woke up in a room, overlooking a breathtaking setting in a to me unknown environment. Two female creatures rushed towards me but said nothing. Apparently there was a language barrier. I saw in the room, where I was 'wide awake' and 'taken care of', a large screen with three astronauts, that was the topic of the day. I was one of the three, but I did not recognize myself in the spacesuit. I tried to send to my wife on planet Earth a 'whats app' **and realized, that this could last a year before my post had arrived at her.** A little later I was on a street and met there, my two astronomer friends ...' G.

How much Jakob-Lorber-'subscribers' do we have?

We wrote already in one of the previous bulletins, that there are about 300 in number. These consist partly of 'interested', who never have heard of Lorber but are 'open to receive this'. The part from Giuseppe [such 195- consist also of 70% genuine Lorber-readers! and 30% of it has 'dropped out'. The reason why is all a guess: most Italians would rather read the bulletin in their own language. This also applies to the Portuguese and Spanish.

Immediately after the acquisition of Giuseppe, their emails were no longer accessible, assuming that there is no magazine coming anymore. Some had even created a special email address. We have many readers from German-speaking countries, many from Netherlands and from Dutch-speaking countries all over the world and Anglophone. This may say we are truly 'international'. Also via the Internet, a large number of readers can reach us.

There are also many downloads at our website www.zelfbeschouwing.info under international. This is traceable. So in addition to the number, familiar with Lorber and some, not familiar with Lorber, also via the internet, we hope to attract people who are searching the right thing for their soul. Indirectly the number grows well, but this is not exactly detectable! G.

Contacts and reactions

Wilhelm Erdmann from Germany

Hi Gerard,

"God-as-Jesus-Christ" must also be translated precisely like this in Dutch, so that all five vowels in the name are readable as they form the full name of God. See ' the Jews ' from my book. The URL www.e-wi.info (is again modified).

Greetings out of God

Wilhelm

Answer

Thank you, Wilhelm. In addition, I read in the booklet: 'three days in the temple', chapter 19:3 the following text: *'you know, that the ancients pronounced the vowels **that are between the consonants in a word but they did not write them down out of a kind of piety consideration.** (From piety and respect for the name of God: JEHOVA, whose name is formed by the five vocals as follows: ' I(=J) E O U(=V) A.)'*

We only need to review in a Hebrew Bible also and there is exactly written JieHouWaH יהוה with 4 consonants {**JHWH** and not YHVH} – but ... the **W** is pronounced as a **V**!

[the letter U, V does not exist in the Hebrew!] and further with the – **unpronounceable** - three vowels – I am a little familiar with the Hebrew language and I suspect this is reciprocated!- Further, you have beautifully explained it. Christ is written in the Dutch as Christus and maybe you want , for some reason, that the **u** is not accented in Christus? Obviously, it will be translated exactly as in the Dutch and English, according to your wish. G.

The Jews

Book 23 Apostle of the laity- publisher E-Wi

1. After Jesus Christ rose and had ascended into the sky Jakob prepared for his trip to Jutland. Jakob should announce the Messiah of the Jews as an apostle of the laity to the old believers-Jews who trade in Central Europe.
2. The old believers-Jews differ from the temple-Jews. They did not know the name of God and did not go through the many reforms of Moses, who led the Israelites out of Egypt into the promised land. The temple Jews lost the name of God:
3. In Jerusalem, the temple was renovated and the heavy bronze door of the Temple had to be replaced. The high priest was watching the casting the door from the scaffolding. Then, he slipped and fell into the hot, filled with molten bronze, melting-pot.
4. This was a great misfortune for the Torah Jews because the high priest had a convertible Medallion around his neck on which only was written the name of God. The Medallion dissolved in the hot pot and the name of God- leoua- was now unknown to the Jews .
5. The name of God was read only once per year to all, by the high priest behind the curtain in the temple. The name sounded like **JieHouWa** (JHW). Since the proper name of God was not allowed to be pronounced by anyone for centuries, it was now lost.
- 6 In the Jewish books, the vowels, of which the name of God consists, were always replaced by a point. While reading, the reader added by thinking always the correct vowel in the head , so that the " science of correspondences of the Jews" is not lost.
- 7 When the name of God was no longer known to the high priest, the Jews launched a reform. In Scripture, the points were replaced by vowels determined by the temple, so that the Scripture can be read everywhere equal in the world.
8. As Moses provided the writings with vowels, the Jewish religion, the "science of correspondences of the Jews", became more and more into oblivion. When they had largely lost the priests, the Jews came into the Babylonian captivity.
- 9 During the Babylonian captivity the Jewish knowledge is summarized in several instruction books, the Talmud, but the " science of correspondences of the Jews" was not reconstructed by the priests of the Jews and remained lost for them.
10. science of correspondences of the Jews' can be passed only orally if it is to bring forth the so-called supernatural assistance. For practice, the reader of the writings of Moses has to use of the vowels of the godly reading.

11. When former Jewish conservative priest Barnabé Israel [all Jews were called Israel by the last name] heard of the reformed writings, he was angry because he foresaw, that now the Jews would slowly but surely lose the "science of correspondences of the Jews".

12. The priest belonged to the old believers. They did not go through the many reforms of Moses. The old believers have only nine commandments. [see GGJ by Lorber] When the Jews committed the adultery, Moses shared the 9th commandment and so the 10th commandment was formed: "you shall not covet your neighbor's wife."

13. After the writing reform, many Israelites joined the old believers especially the Israelites, who not descended from Jacob's son Judah. Many supporters of the three Jewish schools of philosophy Sadducees, Pharisees and Essenes became old believers-Jews.

14. The philosophy schools were established to learn the science of correspondences when the Jews got a King and were no longer ruled by Guides. The Guides were assigned by God and trained by angels.

15 In the school of the Sadducees, one learns provocative thinking and in the school of the Pharisees, one learns the receptive thinking. In the school of Essen, one learns the reflexive thinking and by the old believers-Jews, one learns orderly thinking.

16. In The doctrine of the Sadducees, the soul is ruined with the body and acknowledges no other legislation than the prescribed laws. They even think it's laudable to have an altercation with the teacher of their own school and learn how to provoke.

17 Few of its followers belong to the best stands. Most of them are poor and don't contribute anything significant, and even if they are obliged to occupy a post, they associate with the Pharisees because otherwise the middle-class does not tolerate them.

18. The Pharisees live abstemiously and know no amenities/comforts. They honor the old ones and do not claim to contradict their orders. They also believe that souls are immortal and wait after death on the day of judgment.

19 As a result of their teachings, the Pharisees have such an impact on the people, that all joint religion activities, prayers and sacrifices, can only be done according to their instructions because it is believed that they want only the best for the people in Word and deed.

20. The Essenes believe in the immortality of the soul and keep the wages of Justice for the most desirable goods. They are people of noble manners and notice the compensating justice, the rich and the poor enjoy their goods alike.

21 Many Essen live, when there are many orphans, unmarried at the monastery. They have no servants because they consider it wrong. . The Dominion of servants is the source of all wars and fights for them, and so they live apart from each other and the one serves another.

22. The old believers have no schools of philosophy which are visible to the outside. They live as real Israelites should live in their opinion as they strive to learn proper thinking of the Israeli judge and pass it on to the next generation.

23 Old believer meant originally as much as to be to be part of the people or to speak the language of the people. At the old believers people are mature at the age of 24. The first 12 years the children are raised by the mother and after that by the father for 12 years.

JLIB in Portuguese?

For example, suppose that we have found someone who is willing to translate the Jakob Lorber International Bulletin in Portuguese, for a reasonably acceptable compensation [250 Euro per bulletin] and that goes well, as long as sufficient voluntary donations come in, then this would be a great asset. However, turns out that after some time the ' translator' no longer can be supported by money, the existence of this bulletin is seriously at risk. If the Portuguese translation work is not funded, then this would mean basically the end of this edition.

A once issued Bulletin [in our case thus in four languages!] should be seen as a joint unit. If one language drops out – for whatever reason- then it would be unfair to go ahead with the three languages used now.(what is going excellent, by the way) If one member suffers, all the members suffer. [i.e. as one of the four international languages fall off, the others will obviously be also let down! [history Giuseppe].

It seems to me a high risk to still involve the Portuguese, Italian or Spanish at the moment. What do the readers think of this?

Healing through prayer?

(Klaus Opitz)

Health is classified as the greatest good in our worldly life and even despite that, there still is sinned against the principles of a healthy life. The consequences are diseases and waste away to a premature death. And at the end, God will get the blame for his own setback.

So if also down the line of your descendants you will always stay in and with Me in faith and action according to My teaching, you also will never have to experience misery...

*Also, your souls will not be made fearful and faint-hearted by **diseases of the body**, because the diseases of the body are always only the bitter consequences of **not keeping the commandments**.*

*Whoever will keep these commandments already from his childhood, will not need a doctor at high age, and his descendants will not have to suffer for the sins of their parents, as this was often the case for centuries with the ancient nations who were loyal to God. But always when the people began to degenerate, then also soon serious physical sufferings came over them and they came to know the **consequences of the insufficient observance or total lack of the observance of God's commandments.** [GGJ 9,35,5-7]*

Jesus is familiar with our hardships.

*“Say I: Yes, it is so, therefore you should not despair even when confronted with still so disgusting events on this earth; for the Father in heaven knows about it and knows it best **why such things are allowed to happen!**”*

Therefore also most illnesses which people have to suffer from, are nothing else than **preventions that the soul does not become one with the flesh....** [GGJ.02_169,11,12]

'Whatever the flesh has put on, it will also have to take off again, whether with or without pain, that is quite irrelevant'. [GGJ.05_075,07]

I said: "It will be done according to your faith. But besides of what you believe, you should remember ***that, for the sake of his soul, it is not always beneficial for man to walk around with a completely healthy body.*** For if his flesh is too healthy, it also becomes easily excited to all kinds of sensual lusts, in which the soul becomes covetous as well, than when his flesh is sickly and weak. **And, so, a physical sickness is in a certain way a guard before the door of the inner life of the soul!**' [GGJ.09_158,11]

'Therefore do not shy away from the multiple burdens that will meet you here and there on this earthly path of life; for I will send it to you for the strengthening of your soul and your spirit! [GGJ.03_120,06]

'If then now and then something comes over you, then think that it is I who lets such a strengthening occur! For the more I love a person, the more he will be tested by Me. For everyone should become equally perfect to Me; for that, however, there will be needed much self-denial, patience, gentleness and the fullest submission to my will'. [GGJ.03_120,070]

... 'the best among all my donations is the cross, because in this germinates the true eternal life for soul and mind!' [HiG.03_46.09.11,01]

The one to whom I still allow all kinds of sufferings and distress, I am helping at the right time. The one however whom I allow to continue unhindered to enjoy his earthly proud and reviling good life, carries his judgment and eternal death already in himself and thus also with him everywhere. Thus, now you also know why many people of worldly esteem and worldly riches can continue to sin and do cruel things unpunished until the death of their body." [GGJ.09_029,13]

Can we dare to hope for God's help if we are in need?

Ask, and it shall be given you; seek, and ye shall find; knock, and it will be opened to you ', writes Matthew in his Gospel (7.7 a. f).

'Tell the sick, they shall not grieve about their sickness, but turn to Me in all earnest and trust Me completely. I shall comfort them, and a stream of the most precious balm will flow into their heart, and the fountain of eternal life will inexhaustibly manifest within them. They will recover and shall be refreshed like the grass after a downpour'. [Household of God 1-1-3]

"When you looking for lively help **only to Me** , then you will be perfectly healthy; because there you will find in my Love, the most powerful medicine against every shortcoming in your own bosom, that is the only universal medicine!

'For behold, all earthly medicines seem in every way, in their effects, as **a battle of the hellish spirits** among each other and are for that reason a true bonum contra malum (good vs. bad), and are therefore as a **true medicine**, that man, by each problem only for this reason can be cured forever!" [Heavenly Gifts 3-45-15, a.f.]

...'But you all shall have no lack of My help. As much as you can do yourselves according to the measure of your strength, that you should do yourselves; whatever is beyond that will then be My business. For truly I say unto you all: Whatever you ask the Father in My name and according to My order which is well-known to you, that will be given to you in the measure of how it can bring benefit to your souls'. [GGJ.06_021,9]

"Who reads my Word and lives by it and has a strong firm belief, to those will help the Word by his faith, as it often is even to be seen in the Gospel.

However, if the right lively faith is missing, there will ' get up and walk ' only be of minor working. **In accordance with that my word and the lively faith is the best medicine, also for the body and a pharmacist has no better.** [Heavenly Gifts 303_48.09.03,05f]

And the same is also applicable already here. Everything depends on the serious will of man; if he seriously betters himself and in full trust asks God for something right and good in My name, it will be given to him in the measure of his true betterment and his faith and trust. And you can now with such My most truest promise be fully content. [GJE.06_069,10]

Jesus can and will help us in line with his Order, but **if and when**, that we must leave up to him alone. **Only Jesus knows when it's the right time for a healing:** "thy will be done!"
